2 Item Catalog

Each item block lists the original survey item and its gold expected revision. Clean controls are marked as unchanged when the expected revision exactly matches the original item.

Item 001	Clean control
ID: gold-200-rewritten-001 Topic: politics/public policy Target construct: support for public election information funding Difficulty: obvious Format: support_oppose Gold labels: <i>none</i>	
Original item Question: Please indicate your level of support or opposition to public funding for nonpartisan local election information campaigns. Response options: • Strongly oppose • Somewhat oppose • Neither support nor oppose • Somewhat support • Strongly support	
Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected.	
Item 002	Clean control
ID: gold-200-rewritten-002 Topic: education Target construct: self-reported uncited copying in coursework Difficulty: realistic Format: binary_yes_no Gold labels: <i>none</i>	
Original item Question: This item is optional. During the last 12 months, did you submit coursework that included text copied from another source without citation? Response options: • Yes • No • Prefer not to answer	
Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected.	

Item 003	Clean control
ID: gold-200-rewritten-003 Topic: mobility Target construct: frequency of public transport use for city trips Difficulty: borderline Format: frequency Gold labels: <i>none</i>	
Original item Question: In the past 7 days, how many times did you use public transport for trips within your city? Response options: • 0 times • 1 time • 2-3 times • 4-6 times • 7 or more times	
Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected. v4 review change: Use count categories consistently; remove the mixed count/rate endpoint “Daily”.	

Item 004	Clean control
ID: gold-200-rewritten-004 Topic: health Target construct: satisfaction with appointment scheduling at primary care practices Difficulty: obvious Format: ordinal_categories Gold labels: <i>none</i>	
Original item Question: How satisfied or dissatisfied are you with the ease of scheduling an appointment at your usual primary care practice? Response options: • Very dissatisfied • Somewhat dissatisfied • Neither satisfied nor dissatisfied • Somewhat satisfied • Very satisfied	
Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected.	

Item 005	Clean control
ID: gold-200-rewritten-005 Topic: finances Target construct: perceived stability of monthly household income Difficulty: realistic Format: ordinal_categories Gold labels: <i>none</i>	
Original item Question: Which statement best describes the stability of your household income during the last 6 months? Response options: • Very unstable • Somewhat unstable • About the same each month • Somewhat stable • Very stable • Prefer not to say	
Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected.	

Item 006	Clean control
ID: gold-200-rewritten-006 Topic: technology Target construct: control over privacy settings in frequently used apps Difficulty: borderline Format: ordinal_categories Gold labels: <i>none</i>	
Original item Question: How much control do you feel you have over privacy settings in the apps you use most often? Response options: • No control • A little control • Some control • A lot of control • Complete control	
Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected.	

Item 007	Clean control
ID: gold-200-rewritten-007 Topic: environment Target construct: frequency of household energy-saving actions Difficulty: obvious Format: frequency Gold labels: <i>none</i>	
Original item Question: In the past 7 days, when a light or device in your home was not being used, how often did someone in your household turn it off? Response options: • Never • Less than half of the time • About half of the time • More than half of the time • Every time • Not applicable	
Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected. v4 review change: Replace vague verbal frequency categories with an explicit opportunity-based rate and a fixed reference period.	
Item 008	Clean control
ID: gold-200-rewritten-008 Topic: work Target construct: ability to take short breaks during work or study Difficulty: realistic Format: frequency Gold labels: <i>none</i>	
Original item Question: During the past 7 days, on the days when you worked or studied and needed a short break, how often were you able to take one? Response options: • Never • Less than half of the time • About half of the time • More than half of the time • Every time • I did not work or study • I did not need a break	
Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected. v4 review change: Replace vague frequency categories with an explicit rate over a fixed reference period and add non-applicable paths.	

Item 009	Clean control
ID: gold-200-rewritten-009 Topic: public services Target construct: clarity of digital government forms Difficulty: borderline Format: ordinal_categories Gold labels: none	
Original item Question: How satisfied or dissatisfied are you with the clarity of instructions on digital government forms you have used in the last 12 months? Response options: • Very dissatisfied • Somewhat dissatisfied • Neither satisfied nor dissatisfied • Somewhat satisfied • Very satisfied	
Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected.	

Item 010	Clean control
ID: gold-200-rewritten-010 Topic: university life Target construct: availability of quiet study spaces Difficulty: obvious Format: ordinal_categories Gold labels: none	
Original item Question: During the current semester, how satisfied or dissatisfied are you with the availability of quiet study spaces on campus? Response options: • Very dissatisfied • Somewhat dissatisfied • Neither satisfied nor dissatisfied • Somewhat satisfied • Very satisfied	
Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected.	

Item 011	Clean control
ID: gold-200-rewritten-011 Topic: labor Target construct: time until receiving responses from job applications Difficulty: realistic Format: categorical_closed_ended Gold labels: <i>none</i>	
Original item Question: For your most recent job search, how long did employers usually take to respond after you submitted an application? Response options: • Less than one week • 1-2 weeks • 3-4 weeks • More than 4 weeks • I did not receive responses • Not applicable	
Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected.	
Item 012	Clean control
ID: gold-200-rewritten-012 Topic: family/household Target construct: weekly unpaid caregiving time Difficulty: borderline Format: numeric_ranges Gold labels: <i>none</i>	
Original item Question: In the past 7 days, about how many hours did you spend providing unpaid care to a child, older adult, or person with a disability? Response options: • 0 hours • 1-5 hours • 6-10 hours • 11-20 hours • More than 20 hours • Prefer not to say	
Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected.	

Item 013	Clean control
ID: gold-200-rewritten-013 Topic: media/culture Target construct: frequency of local news video consumption Difficulty: obvious Format: frequency Gold labels: <i>none</i>	
Original item Question: In the past 7 days, how many times did you watch local news videos online? Response options: • 0 times • 1 time • 2-3 times • 4-6 times • 7 or more times	
Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected. v4 review change: Use count categories consistently; remove the mixed count/rate endpoint “Daily”.	

Item 014	Clean control
ID: gold-200-rewritten-014 Topic: sensitive behaviors Target construct: driving after consuming alcohol Difficulty: realistic Format: binary_yes_no Gold labels: <i>none</i>	
Original item Question: You may skip this item. In the last year, did you drive after drinking alcohol? Response options: • Yes • No • Prefer not to answer	
Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected.	

Item 015	Clean control
ID: gold-200-rewritten-015 Topic: education Target construct: support for additional tutoring in public schools Difficulty: borderline Format: support_oppose Gold labels: <i>none</i>	
Original item Question: What is your view on increasing tutoring support in public schools? Response options: • Strongly oppose • Somewhat oppose • Neither support nor oppose • Somewhat support • Strongly support	
Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected.	

Item 016	Clean control
ID: gold-200-rewritten-016 Topic: public services Target construct: preferred channel for renewing official documents Difficulty: obvious Format: categorical_closed_ended Gold labels: <i>none</i>	
Original item Question: Which channel would you prefer for renewing official documents such as residence certificates or permits? Response options: • Online portal • Phone appointment • In-person office visit • Postal mail • No preference • Other	
Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected.	

Item 017	Clean control
ID: gold-200-rewritten-017 Topic: environment Target construct: concern about summer heat in local neighborhoods Difficulty: realistic Format: ordinal_categories Gold labels: none Original item Question: Please rate your concern about the effects of summer heat in your local neighborhood. Response options: • Not at all concerned • Slightly concerned • Moderately concerned • Very concerned • Extremely concerned Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected.	
Item 018	Clean control
ID: gold-200-rewritten-018 Topic: health Target construct: main reason for missing preventive health appointments Difficulty: borderline Format: open_ended Gold labels: none Original item Question: What is the main reason you have missed or postponed a preventive health appointment, if this has happened to you? Response options: <i>No response options supplied.</i> Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected.	
Item 019	Clean control
ID: gold-200-rewritten-019 Topic: technology Target construct: use of two-factor authentication Difficulty: obvious Format: binary_yes_no Gold labels: none Original item Question: Do you currently use two-factor authentication for at least one important online account? Response options: • Yes • No • Not sure Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected.	

Item 020	Clean control
ID: gold-200-rewritten-020 Topic: mobility Target construct: main transport mode for commuting Difficulty: realistic Format: categorical_closed_ended Gold labels: <i>none</i>	
Original item Question: Which mode of transport do you use most often for travel to work, university, or training? Response options: • Walking • Bicycle • Public transport • Car as driver • Car as passenger • Work or study from home • Other	
Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected.	
Item 021	Clean control
ID: gold-200-rewritten-021 Topic: work Target construct: satisfaction with communication from supervisor Difficulty: borderline Format: ordinal_categories Gold labels: <i>none</i>	
Original item Question: How satisfied or dissatisfied are you with how clearly your supervisor communicates work priorities? Response options: • Very dissatisfied • Somewhat dissatisfied • Neither satisfied nor dissatisfied • Somewhat satisfied • Very satisfied • Not applicable	
Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected.	

Item 022	Clean control
ID: gold-200-rewritten-022 Topic: finances Target construct: ability to cover unexpected expense Difficulty: obvious Format: categorical_closed_ended Gold labels: none	
Original item Question: Could your household cover an unexpected expense of 500 euros within one month? Response options: • Yes, without borrowing • Yes, by borrowing or using credit • No • Not sure • Prefer not to say	
Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected.	

Item 023	Clean control
ID: gold-200-rewritten-023 Topic: family/household Target construct: division of household tasks Difficulty: realistic Format: ordinal_categories Gold labels: none	
Original item Question: How fair or unfair do you consider the current division of routine household tasks in your household? Response options: • Very unfair • Somewhat unfair • Neither fair nor unfair • Somewhat fair • Very fair • Not applicable	
Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected.	

Item 024	Clean control
ID: gold-200-rewritten-024 Topic: media/culture Target construct: attendance at local cultural events Difficulty: borderline Format: numeric_ranges Gold labels: none	
Original item Question: During the last 3 months, how many times did you attend a cultural event such as a concert, exhibition, or theater performance? Response options: • 0 times • 1 time • 2-3 times • 4 or more times	
Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected.	

Item 025	Clean control
ID: gold-200-rewritten-025 Topic: politics/public policy Target construct: perceived usefulness of public consultation processes Difficulty: obvious Format: ordinal_categories Gold labels: none	
Original item Question: How useful do you find public consultation processes for informing local policy decisions? Response options: • Not at all useful • Slightly useful • Moderately useful • Very useful • Extremely useful • I am not familiar with them	
Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected.	

Item 026	Clean control
ID: gold-200-rewritten-026 Topic: sensitive behaviors Target construct: use of non-prescribed medication Difficulty: realistic Format: binary_yes_no Gold labels: <i>none</i>	
Original item Question: This question is optional. In the past year, did you use prescription medication that was not prescribed to you? Response options: • Yes • No • Prefer not to answer	
Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected.	

Item 027	Clean control
ID: gold-200-rewritten-027 Topic: university life Target construct: feedback timing after assignments Difficulty: borderline Format: frequency Gold labels: <i>none</i>	
Original item Question: For assignments submitted this semester, for what proportion did you receive feedback before the next related deadline? Response options: • None • Less than half • About half • More than half • All • No assignments had a related later deadline • Not applicable	
Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected. v4 review change: Ask for a defined proportion rather than using vague frequency words.	

Item 028	Clean control
ID: gold-200-rewritten-028 Topic: labor Target construct: perceived fairness of promotion criteria Difficulty: obvious Format: ordinal_categories Gold labels: none	
Original item Question: How fair or unfair do you consider the promotion criteria used in your current or most recent workplace? Response options: • Very unfair • Somewhat unfair • Neither fair nor unfair • Somewhat fair • Very fair • Not applicable	
Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected.	

Item 029	Clean control
ID: gold-200-rewritten-029 Topic: health Target construct: preferred source for information about vaccination appointments Difficulty: realistic Format: categorical_closed_ended Gold labels: none	
Original item Question: Where would you first look for information about vaccination appointments? Response options: • Doctor or clinic • Public health website • Pharmacy • Family or friends • Social media • Other	
Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected.	

Item 030	Clean control
ID: gold-200-rewritten-030 Topic: technology Target construct: frequency of checking app permissions Difficulty: borderline Format: frequency Gold labels: <i>none</i>	
Original item Question: In the last 6 months, how often did you review permissions granted to apps on your phone? Response options: • Never • Once • 2-3 times • 4 or more times • I do not use smartphone apps	
Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected.	

Item 031	Clean control
ID: gold-200-rewritten-031 Topic: education Target construct: importance of class-size reductions Difficulty: obvious Format: ordinal_categories Gold labels: <i>none</i>	
Original item Question: How important or unimportant do you think reducing class sizes is for improving classroom learning? Response options: • Very unimportant • Somewhat unimportant • Neither important nor unimportant • Somewhat important • Very important	
Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected.	

Item 032	Clean control
ID: gold-200-rewritten-032 Topic: environment Target construct: support for separate food-waste collection Difficulty: realistic Format: support_oppose Gold labels: none Original item Question: Do you support or oppose introducing separate food-waste collection in your municipality? Response options: • Strongly oppose • Somewhat oppose • Neither support nor oppose • Somewhat support • Strongly support Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected.	
Item 033	Clean control
ID: gold-200-rewritten-033 Topic: public services Target construct: recent use of municipal service portal Difficulty: borderline Format: binary_yes_no Gold labels: none Original item Question: In the past 12 months, have you used a municipal online portal to request a service or submit a document? Response options: • Yes • No • Not sure Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected.	
Item 034	Clean control
ID: gold-200-rewritten-034 Topic: work Target construct: main factor when choosing remote-work days Difficulty: obvious Format: open_ended Gold labels: none Original item Question: What is the main factor you consider when deciding whether to work remotely on a given day? Response options: <i>No response options supplied.</i> Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected.	

Item 035	Clean control
ID: gold-200-rewritten-035 Topic: family/household Target construct: housing crowding relative to household needs Difficulty: realistic Format: ordinal_categories Gold labels: none	
Original item Question: How well does your current home meet your household's need for space? Response options: • Very poorly • Somewhat poorly • Neither poorly nor well • Somewhat well • Very well	
Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected.	

Item 036	Clean control
ID: gold-200-rewritten-036 Topic: media/culture Target construct: trust in information from public broadcasters Difficulty: borderline Format: ordinal_categories Gold labels: none	
Original item Question: How much do you trust public broadcasters for information about local events? Response options: • Do not trust at all • Trust a little • Trust somewhat • Trust a lot • Trust completely	
Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected.	

Item 037	Clean control
ID: gold-200-rewritten-037 Topic: politics/public policy Target construct: participation in a public consultation Difficulty: obvious Format: binary_yes_no Gold labels: <i>none</i> Original item Question: In the previous year, did you participate in any public consultation, such as an online survey, town hall, or written comment process? Response options: • Yes • No • Not sure Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected.	
Item 038	Clean control
ID: gold-200-rewritten-038 Topic: university life Target construct: reasons for using academic advising Difficulty: realistic Format: open_ended Gold labels: <i>none</i> Original item Question: What is the main reason you last contacted an academic advising service? Response options: <i>No response options supplied.</i> Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected.	
Item 039	Clean control
ID: gold-200-rewritten-039 Topic: finances Target construct: preferred method for receiving utility bills Difficulty: borderline Format: categorical_closed_ended Gold labels: <i>none</i> Original item Question: How would you prefer to receive utility bills? Response options: • Email • Postal mail • App notification • Online customer portal • No preference • Other Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected.	

Item 040	Clean control
ID: gold-200-rewritten-040 Topic: sensitive behaviors Target construct: frequency of gambling with money Difficulty: obvious Format: frequency Gold labels: <i>none</i>	
Original item Question: Some people prefer not to answer questions about gambling. During the last 12 months, how many times did you gamble with money? Response options: • 0 times • 1 time • 2-3 times • 4-11 times • 12 or more times • Prefer not to answer	
Expected revision <i>No change expected; this clean-control item is preserved as written.</i> Revision notes: • Clean control; no revision expected. v4 review change: Use count categories consistently rather than mixing event counts with “Monthly or more often”.	

Item 041	Flawed item
ID: gold-200-rewritten-041 Topic: environment Target construct: support for protected bike lanes near schools Difficulty: realistic Format: binary_yes_no Gold labels: leading_question	
Original item Question: Because safer routes clearly help children get to school, should the city add protected bike lanes near school entrances? Response options: • Yes • No	
Expected revision Question: To what extent do you support or oppose adding protected bike lanes near school entrances? Response options: • Strongly oppose • Somewhat oppose • Neither support nor oppose • Somewhat support • Strongly support Revision notes: • Remove the persuasive justification and ask for support or opposition neutrally.	

Item 042	Flawed item
ID: gold-200-rewritten-042 Topic: public services Target construct: support for evening hours at municipal service offices Difficulty: borderline Format: binary_yes_no Gold labels: leading_question	
Original item Question: Most busy residents would benefit from evening service-office hours; do you think the municipality should offer them? Response options: • Yes • No	
Expected revision Question: To what extent do you support or oppose offering evening hours at municipal service offices? Response options: • Strongly oppose • Somewhat oppose • Neither support nor oppose • Somewhat support • Strongly support Revision notes: • Remove the claim about what most residents need and use a balanced support-oppose scale.	
Item 043	Flawed item
ID: gold-200-rewritten-043 Topic: technology Target construct: support for default privacy protections in student apps Difficulty: obvious Format: binary_yes_no Gold labels: leading_question	
Original item Question: Wouldn't you agree that student apps should have privacy-protective settings turned on by default? Response options: • Yes • No	
Expected revision Question: To what extent do you support or oppose privacy-protective default settings in student apps? Response options: • Strongly oppose • Somewhat oppose • Neither support nor oppose • Somewhat support • Strongly support Revision notes: • Replace the agreement cue with a neutral request about support or opposition.	

Item 044	Flawed item
ID: gold-200-rewritten-044 Topic: health Target construct: support for free mental-health drop-in hours Difficulty: realistic Format: binary_yes_no Gold labels: leading_question	
Original item Question: Given the importance of mental health, should universities provide free drop-in counseling hours every week? Response options: • Yes • No	
Expected revision Question: To what extent do you support or oppose universities providing free weekly drop-in counseling hours? Response options: • Strongly oppose • Somewhat oppose • Neither support nor oppose • Somewhat support • Strongly support Revision notes: • Remove the value-laden preface so the item does not steer respondents toward support.	
Item 045	Flawed item
ID: gold-200-rewritten-045 Topic: labor Target construct: support for advance notice of shift changes Difficulty: borderline Format: binary_yes_no Gold labels: leading_question	
Original item Question: Isn't it only fair that employers give workers at least two weeks' notice before changing shifts? Response options: • Yes • No	
Expected revision Question: To what extent do you support or oppose requiring employers to give at least two weeks' notice before changing shifts? Response options: • Strongly oppose • Somewhat oppose • Neither support nor oppose • Somewhat support • Strongly support Revision notes: • Remove the fairness cue and ask the policy preference directly.	

Item 046	Flawed item
ID: gold-200-rewritten-046 Topic: media/culture Target construct: support for public funding of local arts venues Difficulty: obvious Format: binary_yes_no Gold labels: leading_question	
Original item Question: Since local arts venues bring communities together, should public funds be used to support them? Response options: • Yes • No	
Expected revision Question: To what extent do you support or oppose using public funds to support local arts venues? Response options: • Strongly oppose • Somewhat oppose • Neither support nor oppose • Somewhat support • Strongly support Revision notes: • Remove the one-sided rationale and present the funding proposal neutrally.	
Item 047	Flawed item
ID: gold-200-rewritten-047 Topic: finances Target construct: support for automatic reminders before bank overdraft fees Difficulty: realistic Format: binary_yes_no Gold labels: leading_question	
Original item Question: Don't you think banks should obviously warn customers before charging overdraft fees? Response options: • Yes • No	
Expected revision Question: To what extent do you support or oppose requiring banks to send reminders before charging overdraft fees? Response options: • Strongly oppose • Somewhat oppose • Neither support nor oppose • Somewhat support • Strongly support Revision notes: • Avoid wording that implies the preferred answer is obvious.	

Item 048	Flawed item
ID: gold-200-rewritten-048 Topic: university life Target construct: support for longer library opening hours during exams Difficulty: borderline Format: binary_yes_no Gold labels: leading_question	
Original item Question: Students clearly need more study time during exams; should the library stay open later? Response options: • Yes • No	
Expected revision Question: To what extent do you support or oppose extending library opening hours during exam periods? Response options: • Strongly oppose • Somewhat oppose • Neither support nor oppose • Somewhat support • Strongly support Revision notes: • Remove the leading justification and use a balanced answer scale.	
Item 049	Flawed item
ID: gold-200-rewritten-049 Topic: finances Target construct: effect of account fees on monthly available money Difficulty: obvious Format: ordinal_categories Gold labels: loaded_question	
Original item Question: How much did the bank's hidden account fees reduce the money you had available for monthly expenses? Response options: • Not at all • Slightly • Moderately • A great deal • I did not have account fees • Not sure	
Expected revision Question: During the last 12 months, how much did account fees, if any, affect the money you had available for monthly expenses? Response options: • Not at all • Slightly • Moderately • A great deal • I did not have account fees • Not sure Revision notes: • Remove the presupposition that the fees were hidden and ask neutrally about the effect, if any. • Keep a no-applicable-fees option so the flaw is not incomplete response coverage.	

Item 050	Flawed item
ID: gold-200-rewritten-050 Topic: university life Target construct: effect of course registration portal on semester planning Difficulty: realistic Format: open_ended Gold labels: loaded_question	
Original item Question: In what ways did the confusing course registration portal make it harder for you to plan this semester? Response options: <i>No response options supplied.</i>	
Expected revision Question: In what ways, if any, did the course registration portal affect your ability to plan this semester? Response options: <i>No response options supplied.</i> Revision notes: • Remove the presuppositions that the portal was confusing and that it made planning harder. • Use an open-ended response so no closed option coverage problem is introduced.	
Item 051	Flawed item
ID: gold-200-rewritten-051 Topic: technology Target construct: frequency of campus app login problems preventing service access Difficulty: borderline Format: frequency Gold labels: loaded_question	
Original item Question: During the last month, how often did the campus app's recurring login problems prevent you from accessing university services? Response options: • Never • Once • 2-3 times • 4 or more times • I did not use the campus app this month	
Expected revision Question: During the last month, how often, if at all, did login problems with the campus app prevent you from accessing university services? Response options: • Never • Once • 2-3 times • 4 or more times • I did not use the campus app this month Revision notes: • Remove the presupposition that login problems were recurring. • Retain never and non-user options to avoid incomplete response alternatives.	

ID: gold-200-rewritten-052

Topic: labor

Target construct: extra time attributed to shift-scheduling system

Difficulty: obvious **Format:** numeric_ranges

Gold labels: loaded_question

Original item

Question: Last month, how much extra time did the poorly organized shift-scheduling system create for you?

Response options:

- No extra time
- Less than 30 minutes
- 30 minutes to 2 hours
- More than 2 hours
- Not applicable

Expected revision

Question: Last month, how much extra time, if any, did the shift-scheduling system create for you?

Response options:

- No extra time
- Less than 30 minutes
- 30 minutes to 2 hours
- More than 2 hours
- Not applicable

Revision notes:

- Remove the presupposition that the scheduling system was poorly organized.
- Include a no-extra-time option so respondents are not forced to report a burden.

ID: gold-200-rewritten-053

Topic: family/household

Target construct: household task affected by building maintenance service

Difficulty: realistic **Format:** categorical_closed_ended

Gold labels: loaded_question

Original item

Question: Which household task, if any, was most affected by your building's unreliable maintenance service this winter?

Response options:

- No household task was affected
- Cleaning
- Laundry
- Cooking
- Childcare or care work
- Another household task
- Not applicable

Expected revision

Question: This winter, did building maintenance service affect any household task? If yes, which task was most affected?

Response options:

- No household task was affected
- Cleaning
- Laundry
- Cooking
- Childcare or care work
- Another household task
- Not applicable

Revision notes:

- Remove the presupposition that the maintenance service was unreliable.
- Ask first whether a task was affected and include no-event and not-applicable options.

Item 054	Flawed item
ID: gold-200-rewritten-054 Topic: mobility Target construct: effect of roadworks on usual commute Difficulty: borderline Format: ordinal_categories Gold labels: loaded_question	
Original item Question: What effect did the city's poorly timed roadworks have on your usual commute last week? Response options: • Made it easier • No effect • Made it slightly harder • Made it moderately harder • Made it much harder • I did not make this commute last week	
Expected revision Question: Last week, what effect, if any, did the city's roadworks have on your usual commute? Response options: • Made it easier • No effect • Made it slightly harder • Made it moderately harder • Made it much harder • I did not make this commute last week Revision notes: • Remove the presupposition that the roadworks were poorly timed. • Use balanced effect categories so the item is not also incomplete or unbalanced.	
Item 055	Flawed item
ID: gold-200-rewritten-055 Topic: politics/public policy Target construct: support for reducing spending on decorative public signs Difficulty: obvious Format: support_oppose Gold labels: loaded_question	
Original item Question: Do you support or oppose reducing the city's excessive spending on decorative public signs? Response options: • Strongly oppose • Somewhat oppose • Neither support nor oppose • Somewhat support • Strongly support • Not sure	
Expected revision Question: Do you support or oppose reducing city spending on decorative public signs? Response options: • Strongly oppose • Somewhat oppose • Neither support nor oppose • Somewhat support • Strongly support • Not sure Revision notes: • Remove the presupposition that the spending is excessive. • Keep a balanced support-oppose scale.	

Item 056	Flawed item
ID: gold-200-rewritten-056 Topic: health Target construct: whether clinic appointment reminders caused missed or rescheduled appointments Difficulty: realistic Format: binary_yes_no Gold labels: loaded_question	
Original item Question: This year, did the clinic's confusing appointment reminders cause you to miss or reschedule an appointment? Response options: • Yes • No • I did not receive clinic appointment reminders this year • I did not have clinic appointments this year	
Expected revision Question: This year, did appointment reminders from a clinic cause you to miss or reschedule an appointment? Response options: • Yes • No • I did not receive clinic appointment reminders this year • I did not have clinic appointments this year Revision notes: • Remove the presupposition that the reminders were confusing. • Include no-reminder and no-appointment paths to avoid incomplete response coverage.	
Item 057	Flawed item
ID: gold-200-rewritten-057 Topic: public services Target construct: satisfaction with clarity of forms and waiting times Difficulty: borderline Format: ordinal_categories Gold labels: double_barreled	
Original item Question: Please rate your satisfaction with the clarity of municipal forms and the waiting time for appointments at the service office. Response options: • Very dissatisfied • Somewhat dissatisfied • Neither satisfied nor dissatisfied • Somewhat satisfied • Very satisfied	
Expected revision Question: How satisfied or dissatisfied are you with the clarity of municipal forms? Response options: • Very dissatisfied • Somewhat dissatisfied • Neither satisfied nor dissatisfied • Somewhat satisfied • Very satisfied Revision notes: • Split the form-clarity and appointment-waiting-time constructs into separate items.	

Item 058	Flawed item
ID: gold-200-rewritten-058 Topic: mobility Target construct: evaluation of bus punctuality and ticket prices Difficulty: obvious Format: ordinal_categories Gold labels: double_barreled	
Original item Question: How would you rate the punctuality of buses and the affordability of ticket prices in your area? Response options: • Very poor • Poor • Neither poor nor good • Good • Very good	
Expected revision Question: How would you rate the punctuality of buses in your area? Response options: • Very poor • Poor • Neither poor nor good • Good • Very good Revision notes: • Ask about punctuality separately from ticket affordability.	
Item 059	Flawed item
ID: gold-200-rewritten-059 Topic: health Target construct: satisfaction with doctor availability and explanation quality Difficulty: realistic Format: ordinal_categories Gold labels: double_barreled	
Original item Question: When seeking care, how satisfied are you with appointment availability and how clearly doctors explain treatments? Response options: • Very dissatisfied • Somewhat dissatisfied • Neither satisfied nor dissatisfied • Somewhat satisfied • Very satisfied	
Expected revision Question: How satisfied or dissatisfied are you with how easy it is to get a doctor appointment? Response options: • Very dissatisfied • Somewhat dissatisfied • Neither satisfied nor dissatisfied • Somewhat satisfied • Very satisfied Revision notes: • Separate access to appointments from quality of explanations.	

Item 060	Flawed item
ID: gold-200-rewritten-060 Topic: university life Target construct: trust in data security and ease of use of university platforms Difficulty: borderline Format: ordinal_categories Gold labels: double_barreled Original item Question: When using the university online platform, how much do you trust it to protect your data and be easy to use? Response options: • Do not trust at all • Trust a little • Trust somewhat • Trust a lot • Trust completely Expected revision Question: How much do you trust the university online platform to protect your data? Response options: • Do not trust at all • Trust a little • Trust somewhat • Trust a lot • Trust completely Revision notes: • Data protection and ease of use are different concepts and should be asked separately.	
Item 061	Flawed item
ID: gold-200-rewritten-061 Topic: family/household Target construct: fairness of chores and childcare division Difficulty: obvious Format: ordinal_categories Gold labels: double_barreled Original item Question: In your household, how fair is the division of routine chores and childcare responsibilities? Response options: • Very unfair • Somewhat unfair • Neither fair nor unfair • Somewhat fair • Very fair • Not applicable Expected revision Question: How fair or unfair is the division of routine household chores in your household? Response options: • Very unfair • Somewhat unfair • Neither fair nor unfair • Somewhat fair • Very fair • Not applicable Revision notes: • Separate routine chores from childcare responsibilities.	

Item 062	Flawed item
ID: gold-200-rewritten-062 Topic: labor Target construct: satisfaction with pay and schedule flexibility Difficulty: realistic Format: ordinal_categories Gold labels: double_barreled Original item Question: Overall, how satisfied are you with your pay and your ability to adjust your work schedule? Response options: • Very dissatisfied • Somewhat dissatisfied • Neither satisfied nor dissatisfied • Somewhat satisfied • Very satisfied • Not applicable Expected revision Question: How satisfied or dissatisfied are you with your pay? Response options: • Very dissatisfied • Somewhat dissatisfied • Neither satisfied nor dissatisfied • Somewhat satisfied • Very satisfied • Not applicable Revision notes: • Ask pay satisfaction separately from schedule flexibility.	
Item 063	Flawed item
ID: gold-200-rewritten-063 Topic: environment Target construct: concern about air quality and noise Difficulty: borderline Format: ordinal_categories Gold labels: double_barreled Original item Question: Please rate your concern about air quality and noise levels in your neighborhood. Response options: • Not at all concerned • Slightly concerned • Moderately concerned • Very concerned • Extremely concerned Expected revision Question: How concerned are you about air quality in your neighborhood? Response options: • Not at all concerned • Slightly concerned • Moderately concerned • Very concerned • Extremely concerned Revision notes: • Separate air quality from noise levels because respondents may evaluate them differently.	

Item 064	Flawed item
ID: gold-200-rewritten-064 Topic: university life Target construct: evaluation of teaching quality and cafeteria prices Difficulty: obvious Format: ordinal_categories Gold labels: double_barreled	
Original item Question: How would you rate the quality of teaching and the affordability of cafeteria meals this semester? Response options: • Very poor • Poor • Neither poor nor good • Good • Very good	
Expected revision Question: How would you rate the quality of teaching this semester? Response options: • Very poor • Poor • Neither poor nor good • Good • Very good Revision notes: • Split teaching quality and cafeteria affordability into separate items.	
Item 065	Flawed item
ID: gold-200-rewritten-065 Topic: media/culture Target construct: frequency of checking local event listings Difficulty: realistic Format: frequency Gold labels: recall_error	
Original item Question: Over the last 12 months, how many times did you check online listings for local events? Response options: • 0 times • 1-10 times • 11-50 times • More than 50 times	
Expected revision Question: In the past 30 days, how often did you check online listings for local events? Response options: • Never • Once • 2-3 times • Weekly • Several times per week Revision notes: • Shorten the recall period for a routine online behavior.	

Item 066	Flawed item
ID: gold-200-rewritten-066 Topic: mobility Target construct: frequency of cycling trips Difficulty: borderline Format: frequency Gold labels: recall_error	
Original item Question: During the last year, how many individual trips did you make by bicycle? Response options: • 0 trips • 1-20 trips • 21-100 trips • More than 100 trips	
Expected revision Question: In the past 7 days, how many trips did you make by bicycle? Response options: • 0 trips • 1 trip • 2-3 trips • 4-6 trips • 7 or more trips Revision notes: • Use a shorter reference period that respondents can estimate more reliably.	
Item 067	Flawed item
ID: gold-200-rewritten-067 Topic: health Target construct: frequency of eating vegetables Difficulty: obvious Format: frequency Gold labels: recall_error	
Original item Question: In the past 12 months, on how many days did you eat vegetables? Response options: • 0-30 days • 31-120 days • 121-240 days • More than 240 days	
Expected revision Question: In the past 7 days, on how many days did you eat vegetables? Response options: • 0 days • 1-2 days • 3-4 days • 5-6 days • 7 days Revision notes: • Avoid asking respondents to count a frequent behavior across a full year.	

Item 068	Flawed item
ID: gold-200-rewritten-068 Topic: technology Target construct: frequency of dismissing phone notifications Difficulty: realistic Format: frequency Gold labels: recall_error Original item Question: Thinking about the last 12 months, how many times did you dismiss notifications on your phone without reading them? Response options: • 0 times • 1-50 times • 51-200 times • More than 200 times Expected revision Question: Yesterday, about how often did you dismiss phone notifications without reading them? Response options: • Never • 1-5 times • 6-10 times • 11-20 times • More than 20 times Revision notes: • Reduce recall burden for a high-frequency behavior.	
Item 069	Flawed item
ID: gold-200-rewritten-069 Topic: work Target construct: frequency of checking work messages after hours Difficulty: borderline Format: frequency Gold labels: recall_error Original item Question: Thinking back over the previous year, how many evenings did you check work messages after your scheduled hours? Response options: • 0 evenings • 1-20 evenings • 21-100 evenings • More than 100 evenings • Not applicable Expected revision Question: During the past 14 days, on how many evenings did you check work messages after your scheduled hours? Response options: • 0 evenings • 1-2 evenings • 3-5 evenings • 6-10 evenings • More than 10 evenings • Not applicable Revision notes: • Use a shorter period for repeated after-hours behavior.	

Item 070	Flawed item
ID: gold-200-rewritten-070 Topic: education Target construct: frequency of reviewing lecture notes Difficulty: obvious Format: frequency Gold labels: recall_error Original item Question: Since the beginning of the academic year, how many times have you reviewed lecture notes after class? Response options: • 0 times • 1-10 times • 11-50 times • More than 50 times Expected revision Question: During the last 2 weeks of classes, how often did you review lecture notes after class? Response options: • Not at all • Once • 2-3 times • 4-6 times • 7 or more times Revision notes: • Shorten the reference period to improve recall accuracy.	
Item 071	Flawed item
ID: gold-200-rewritten-071 Topic: public services Target construct: frequency of visiting municipal websites Difficulty: realistic Format: frequency Gold labels: recall_error Original item Question: Over the past 12 months, how many times did you visit a municipal website to look for information? Response options: • 0 times • 1-5 times • 6-20 times • More than 20 times Expected revision Question: In the past 3 months, how often did you visit a municipal website to look for information? Response options: • Never • Once • 2-3 times • Monthly • More than monthly Revision notes: • Use a time frame that matches the salience of the behavior.	

Item 072	Flawed item
ID: gold-200-rewritten-072 Topic: finances Target construct: frequency of checking account balance Difficulty: borderline Format: frequency Gold labels: recall_error Original item Question: In the last year, how many times did you check the balance of your main bank account? Response options: • 0 times • 1-20 times • 21-100 times • More than 100 times Expected revision Question: In the past 7 days, how often did you check the balance of your main bank account? Response options: • Not at all • Once • 2-3 times • 4-6 times • Daily Revision notes: • Ask about a recent short period for a frequent financial behavior.	
Item 073	Flawed item
ID: gold-200-rewritten-073 Topic: public services Target construct: clarity of eligibility information for housing support Difficulty: obvious Format: ordinal_categories Gold labels: vague_ambiguous Original item Question: How good is the city's help for people who need housing support? Response options: • Bad • Okay • Good Expected revision Question: How clear or unclear was the eligibility information for housing support on the city website the last time you looked for it? Response options: • Very unclear • Somewhat unclear • Neither clear nor unclear • Somewhat clear • Very clear • Not applicable Revision notes: • Specify the service element and use interpretable response labels.	

Item 074	Flawed item
ID: gold-200-rewritten-074 Topic: health Target construct: perceived access to mental health services Difficulty: realistic Format: ordinal_categories Gold labels: vague_ambiguous Original item Question: Do you have enough access to mental health support? Response options: • No • Maybe • Yes Expected revision Question: How easy or difficult would it be for you to arrange an appointment with a mental health professional within the next 4 weeks? Response options: • Very difficult • Somewhat difficult • Neither easy nor difficult • Somewhat easy • Very easy • Not sure Revision notes: • Clarify what access means and define a concrete time frame.	
Item 075	Flawed item
ID: gold-200-rewritten-075 Topic: university life Target construct: perceived quality of campus Wi-Fi Difficulty: borderline Format: ordinal_categories Gold labels: vague_ambiguous Original item Question: How is the Wi-Fi these days? Response options: • Bad • Fine • Good Expected revision Question: During the last 2 weeks on campus, how satisfied or dissatisfied were you with the reliability of the Wi-Fi connection? Response options: • Very dissatisfied • Somewhat dissatisfied • Neither satisfied nor dissatisfied • Somewhat satisfied • Very satisfied • Not applicable Revision notes: • Replace vague wording with a specific setting and attribute.	

Item 076	Flawed item
ID: gold-200-rewritten-076 Topic: work Target construct: sense of work-life balance Difficulty: obvious Format: ordinal_categories Gold labels: vague_ambiguous Original item Question: Is your work-life balance okay? Response options: • No • Somewhat • Yes Expected revision Question: During the last 4 weeks, how satisfied or dissatisfied were you with the amount of time left for personal life after work? Response options: • Very dissatisfied • Somewhat dissatisfied • Neither satisfied nor dissatisfied • Somewhat satisfied • Very satisfied • Not applicable Revision notes: • Define the construct more precisely and provide balanced response options.	
Item 077	Flawed item
ID: gold-200-rewritten-077 Topic: environment Target construct: views about local green areas Difficulty: realistic Format: ordinal_categories Gold labels: vague_ambiguous Original item Question: What do you think about green spaces around here? Response options: • Bad • Average • Good Expected revision Question: How satisfied or dissatisfied are you with the availability of public green spaces within walking distance of your home? Response options: • Very dissatisfied • Somewhat dissatisfied • Neither satisfied nor dissatisfied • Somewhat satisfied • Very satisfied • Not sure Revision notes: • Specify the aspect of green spaces and the reference area.	

Item 078	Flawed item
ID: gold-200-rewritten-078 Topic: education Target construct: assessment of academic support Difficulty: borderline Format: ordinal_categories Gold labels: vague_ambiguous Original item Question: Was academic support useful? Response options: • Not useful • Useful Expected revision Question: How useful or not useful was academic support for understanding course requirements this semester? Response options: • Not at all useful • Slightly useful • Moderately useful • Very useful • Extremely useful • Did not use academic support Revision notes: • State the support type and reference period explicitly.	
Item 079	Flawed item
ID: gold-200-rewritten-079 Topic: family/household Target construct: perceived adequacy of childcare options Difficulty: obvious Format: ordinal_categories Gold labels: vague_ambiguous Original item Question: Are childcare options in your area good? Response options: • No • Somewhat • Yes Expected revision Question: How satisfied or dissatisfied are you with the availability of childcare options within 30 minutes of your home? Response options: • Very dissatisfied • Somewhat dissatisfied • Neither satisfied nor dissatisfied • Somewhat satisfied • Very satisfied • Not applicable Revision notes: • Clarify the dimension of childcare and the geographic reference.	

Item 080	Flawed item
ID: gold-200-rewritten-080 Topic: media/culture Target construct: perceived relevance of local news Difficulty: realistic Format: ordinal_categories Gold labels: vague_ambiguous Original item Question: How relevant is local news for you? Response options: • Not relevant • Relevant Expected revision Question: How relevant or irrelevant are local news stories to decisions you make about activities in your area? Response options: • Very irrelevant • Somewhat irrelevant • Neither relevant nor irrelevant • Somewhat relevant • Very relevant Revision notes: • Specify what relevance refers to and balance the response options.	
Item 081	Flawed item
ID: gold-200-rewritten-081 Topic: finances Target construct: late rent or mortgage payments Difficulty: borderline Format: binary_yes_no Gold labels: sensitive_topic_direct Original item Question: Have you been late paying rent or a mortgage in the last 12 months? Response options: • Yes • No Expected revision Question: People have different experiences, and you may skip this question. In the last 12 months, were you late paying rent or a mortgage? Response options: • Yes • No • Prefer not to answer Revision notes: • Reduce threat and provide a prefer-not-to-answer option.	

Item 082	Flawed item
ID: gold-200-rewritten-082 Topic: sensitive behaviors Target construct: use of unauthorized assistance in assignments Difficulty: obvious Format: binary_yes_no Gold labels: sensitive_topic_direct	
Original item Question: Did you use unauthorized help to complete an assignment this semester? Response options: • Yes • No	
Expected revision Question: People have different experiences, and you may skip this question. This semester, did you use help that was not allowed for an assignment? Response options: • Yes • No • Prefer not to answer Revision notes: • Add permission to skip and soften the sensitive wording without changing the construct.	
Item 083	Flawed item
ID: gold-200-rewritten-083 Topic: sensitive behaviors Target construct: recreational drug use Difficulty: realistic Format: binary_yes_no Gold labels: sensitive_topic_direct	
Original item Question: Have you used illegal drugs in the past 12 months? Response options: • Yes • No	
Expected revision Question: People have different experiences, and you may skip this question. During the past 12 months, did you use any drugs that were not legally available to you? Response options: • Yes • No • Prefer not to answer Revision notes: • Use less accusatory wording and include a prefer-not-to-answer option.	

Item 084	Flawed item
ID: gold-200-rewritten-084 Topic: labor Target construct: being disciplined at work Difficulty: borderline Format: binary_yes_no Gold labels: sensitive_topic_direct Original item Question: Were you formally disciplined by your employer in the last year? Response options: • Yes • No Expected revision Question: People have different employment experiences, and you may skip this question. During the last year, were you formally disciplined by an employer? Response options: • Yes • No • Prefer not to answer • Not applicable Revision notes: • Normalize the sensitivity and allow nonresponse or not-applicable.	
Item 085	Flawed item
ID: gold-200-rewritten-085 Topic: family/household Target construct: household conflict involving shouting Difficulty: obvious Format: binary_yes_no Gold labels: sensitive_topic_direct Original item Question: Did someone in your household shout at or threaten you in the last 6 months? Response options: • Yes • No Expected revision Question: People have different household experiences, and you may skip this question. In the last 6 months, did someone in your household shout at or threaten you? Response options: • Yes • No • Prefer not to answer • Not applicable Revision notes: • Add a protective introduction and an explicit nonresponse option.	

Item 086	Flawed item
ID: gold-200-rewritten-086 Topic: health Target construct: avoiding medical care because of embarrassment Difficulty: realistic Format: binary_yes_no Gold labels: sensitive_topic_direct Original item Question: Did you avoid medical care because you were embarrassed about your symptoms? Response options: • Yes • No Expected revision Question: People have different experiences, and you may skip this question. In the last 12 months, did embarrassment about symptoms lead you to avoid medical care? Response options: • Yes • No • Prefer not to answer Revision notes: • Reduce judgmental tone and include a prefer-not-to-answer option.	
Item 087	Flawed item
ID: gold-200-rewritten-087 Topic: sensitive behaviors Target construct: looking at someone else's private messages Difficulty: borderline Format: binary_yes_no Gold labels: sensitive_topic_direct Original item Question: Have you looked at someone else's private messages without permission in the last year? Response options: • Yes • No Expected revision Question: People have different experiences, and you may skip this question. In the last year, did you look at someone else's private messages without their permission? Response options: • Yes • No • Prefer not to answer Revision notes: • Retain the construct but reduce threat and allow refusal.	

Item 088	Flawed item
ID: gold-200-rewritten-088 Topic: university life Target construct: academic probation or formal warning Difficulty: obvious Format: binary_yes_no Gold labels: sensitive_topic_direct	
Original item Question: Are you currently on academic probation or under a formal academic warning? Response options: • Yes • No	
Expected revision Question: People have different academic experiences, and you may skip this question. Are you currently on academic probation or under a formal academic warning? Response options: • Yes • No • Prefer not to answer • Not sure Revision notes: • Add a neutral preface and a nonresponse option for the sensitive status item.	
Item 089	Flawed item
ID: gold-200-rewritten-089 Topic: environment Target construct: frequency of sorting recyclable waste Difficulty: realistic Format: frequency Gold labels: social_desirability	
Original item Question: When your household handles waste, how often do you responsibly sort it for recycling, as everyone should? Response options: • Never • Sometimes • Always	
Expected revision Question: During a typical week, how often do you sort household waste for recycling? Response options: • Never • Rarely • Sometimes • Often • Very often • Not applicable Revision notes: • Remove the moral cue and ask about the behavior neutrally.	

Item 090	Flawed item
ID: gold-200-rewritten-090 Topic: health Target construct: frequency of eating fruit Difficulty: borderline Format: frequency Gold labels: social_desirability, vague_ambiguous Original item Question: In a typical day, how often do you make the healthy choice to eat fruit? Response options: • Rarely • Usually • Always Expected revision Question: In the past 7 days, on how many days did you eat at least one portion of fruit? Response options: • 0 days • 1-2 days • 3-4 days • 5-6 days • 7 days Revision notes: • Avoid wording that praises one response as healthy. • Specify a 7-day reference period and ask for a count of days rather than a vague frequency judgment. v4 review change: Add vague_ambiguous because the original reference period, target event, or frequency task is underspecified; ensure the expected revision addresses it.	
Item 091	Flawed item
ID: gold-200-rewritten-091 Topic: politics/public policy Target construct: voting participation Difficulty: obvious Format: binary_yes_no Gold labels: social_desirability, vague_ambiguous Original item Question: Responsible citizens vote in local elections. Did you vote in the most recent local election? Response options: • Yes • No Expected revision Question: In the municipal election held on 15 March 2026, did you vote? Response options: • Yes • No • I was not eligible to vote • Prefer not to answer • Not sure Revision notes: • Remove the civic-duty cue that pressures respondents toward yes. • Identify the election with a concrete jurisdiction-specific date rather than “the most recent local election”. v4 review change: Add vague_ambiguous because the original reference period, target event, or frequency task is underspecified; ensure the expected revision addresses it.	

Item 092	Flawed item
ID: gold-200-rewritten-092 Topic: work Target construct: reporting errors at work Difficulty: realistic Format: frequency Gold labels: social_desirability, vague_ambiguous	
Original item Question: At work, how often do you honestly report mistakes instead of hiding them? Response options: • Never • Sometimes • Always • Not applicable	
Expected revision Question: In the last 3 months, how often did you report a work mistake to the person responsible for handling it? Response options: • Never • Once • 2-3 times • 4 or more times • No relevant mistake occurred • Not applicable Revision notes: • Remove the honesty judgment and define the behavior. • Set a 3-month reference period and specify the person or function to whom the mistake was reported. v4 review change: Add vague_ambiguous because the original reference period, target event, or frequency task is underspecified; ensure the expected revision addresses it.	
Item 093	Flawed item
ID: gold-200-rewritten-093 Topic: education Target construct: attending class prepared Difficulty: borderline Format: frequency Gold labels: social_desirability, vague_ambiguous	
Original item Question: Before class, how often do you come prepared like a serious student? Response options: • Never • Sometimes • Always	
Expected revision Question: During the last 2 weeks of classes, how often did you complete the assigned preparation before class? Response options: • Never • Rarely • Sometimes • Often • Always • Not applicable Revision notes: • Remove the label of a good student and ask about preparation behavior. • Set a 2-week reference period and define preparation as completing assigned work. v4 review change: Add vague_ambiguous because the original reference period, target event, or frequency task is underspecified; ensure the expected revision addresses it.	

Item 094	Flawed item
ID: gold-200-rewritten-094 Topic: finances Target construct: paying bills on time Difficulty: obvious Format: binary_yes_no Gold labels: social_desirability	
Original item Question: Do you pay your bills on time like a financially responsible person? Response options: • Yes • No	
Expected revision Question: During the last 6 months, were any household bills paid after their due date? Response options: • Yes • No • Not sure • Prefer not to say Revision notes: • Remove the socially desirable identity cue and ask about the event neutrally.	
Item 095	Flawed item
ID: gold-200-rewritten-095 Topic: technology Target construct: using strong passwords Difficulty: realistic Format: categorical_closed_ended Gold labels: social_desirability	
Original item Question: Do you use strong passwords, as careful internet users should? Response options: • Yes • No	
Expected revision Question: For your most important online account, which statement best describes your password? Response options: • Unique password not used elsewhere • Password reused on some sites • Password reused on many sites • Not sure • Prefer not to say Revision notes: • Avoid implying that one answer is morally superior.	

Item 096	Flawed item
ID: gold-200-rewritten-096 Topic: family/household Target construct: checking on older relatives Difficulty: borderline Format: frequency Gold labels: social_desirability	
Original item Question: In your family, how often do you do the right thing and check on older relatives who might need help? Response options: • Never • Sometimes • Always • Not applicable	
Expected revision Question: In the past 30 days, how often did you contact an older relative to ask whether they needed help? Response options: • Not at all • Once • 2-3 times • Weekly • More than weekly • Not applicable Revision notes: • Remove the normative phrasing and specify the behavior.	
Item 097	Flawed item
ID: gold-200-rewritten-097 Topic: health Target construct: ease of understanding medication instructions Difficulty: obvious Format: ordinal_categories Gold labels: negative_wording	
Original item Question: How difficult was it for you not to understand the medication instructions you received? Response options: • Very difficult • Somewhat difficult • Neither difficult nor easy • Somewhat easy • Very easy	
Expected revision Question: How easy or difficult was it for you to understand the medication instructions you received? Response options: • Very difficult • Somewhat difficult • Neither easy nor difficult • Somewhat easy • Very easy Revision notes: • Remove the negation and align the scale with the positive construct.	

Item 098	Flawed item
ID: gold-200-rewritten-098 Topic: technology Target construct: concern about data sharing Difficulty: realistic Format: ordinal_categories Gold labels: negative_wording	
Original item Question: How unconcerned are you about apps not sharing your data without permission? Response options: • Very unconcerned • Somewhat unconcerned • Neither unconcerned nor concerned • Somewhat concerned • Very concerned	
Expected revision Question: How concerned are you about apps sharing your data without your permission? Response options: • Not at all concerned • Slightly concerned • Moderately concerned • Very concerned • Extremely concerned Revision notes: • Rewrite the item without nested negative wording.	
Item 099	Flawed item
ID: gold-200-rewritten-099 Topic: labor Target construct: ability to disconnect from work messages Difficulty: borderline Format: frequency Gold labels: negative_wording	
Original item Question: How often are you not unable to avoid checking work messages after hours? Response options: • Never • Rarely • Sometimes • Often • Always	
Expected revision Question: How often do you check work messages after your scheduled work hours? Response options: • Never • Rarely • Sometimes • Often • Always • Not applicable Revision notes: • Replace the double negative with a direct behavioral question.	

Item 100	Flawed item
ID: gold-200-rewritten-100 Topic: education Target construct: clarity of exam instructions Difficulty: obvious Format: likert_agreement Gold labels: negative_wording, agree_disagree_scale	
Original item Question: To what extent do you disagree that exam instructions were not unclear? Response options: • Strongly disagree • Somewhat disagree • Neither agree nor disagree • Somewhat agree • Strongly agree	
Expected revision Question: How clear or unclear were the exam instructions? Response options: • Very unclear • Somewhat unclear • Neither clear nor unclear • Somewhat clear • Very clear Revision notes: • Avoid the disagree-not-unclear construction and ask directly about clarity. • Replace agreement options with an item-specific clear–unclear response scale. v4 review change: Add agree_disagree_scale because agreement categories are used to measure perceived clarity.	
Item 101	Flawed item
ID: gold-200-rewritten-101 Topic: public services Target construct: ease of finding permit information Difficulty: realistic Format: ordinal_categories Gold labels: negative_wording	
Original item Question: How hard was it not to find information about permit requirements on the city website? Response options: • Very hard • Somewhat hard • Neither hard nor easy • Somewhat easy • Very easy	
Expected revision Question: How easy or difficult was it to find information about permit requirements on the city website? Response options: • Very difficult • Somewhat difficult • Neither easy nor difficult • Somewhat easy • Very easy Revision notes: • Remove the unnecessary negation.	

Item 102	Flawed item
ID: gold-200-rewritten-102 Topic: environment Target construct: support for reducing plastic packaging Difficulty: borderline Format: binary_yes_no Gold labels: negative_wording	
Original item Question: Do you oppose not reducing single-use plastic packaging in supermarkets? Response options: • Yes • No	
Expected revision Question: To what extent do you support or oppose reducing single-use plastic packaging in supermarkets? Response options: • Strongly oppose • Somewhat oppose • Neither support nor oppose • Somewhat support • Strongly support Revision notes: • Convert the negatively worded yes/no item into a direct support-oppose item.	
Item 103	Flawed item
ID: gold-200-rewritten-103 Topic: university life Target construct: satisfaction with feedback timing Difficulty: obvious Format: ordinal_categories Gold labels: negative_wording	
Original item Question: How dissatisfied are you with feedback not arriving late? Response options: • Very dissatisfied • Somewhat dissatisfied • Neither satisfied nor dissatisfied • Somewhat satisfied • Very satisfied	
Expected revision Question: How satisfied or dissatisfied are you with the timing of feedback on assignments? Response options: • Very dissatisfied • Somewhat dissatisfied • Neither satisfied nor dissatisfied • Somewhat satisfied • Very satisfied Revision notes: • Remove the negation and ask directly about timing.	

Item 104	Flawed item
ID: gold-200-rewritten-104 Topic: family/household Target construct: difficulty arranging childcare Difficulty: realistic Format: ordinal_categories Gold labels: negative_wording	
Original item Question: How easy was it not to be unable to arrange childcare when needed? Response options: • Very easy • Somewhat easy • Neither easy nor difficult • Somewhat difficult • Very difficult	
Expected revision Question: How easy or difficult was it to arrange childcare when needed? Response options: • Very difficult • Somewhat difficult • Neither easy nor difficult • Somewhat easy • Very easy • Not applicable Revision notes: • Eliminate the double negative and preserve the access construct.	
Item 105	Flawed item
ID: gold-200-rewritten-105 Topic: health Target construct: reasons for postponing medical appointments Difficulty: borderline Format: open_ended Gold labels: open_closed_mismatch	
Original item Question: Please describe in your own words the main reason you postponed a medical appointment. Response options: • Cost • No time • Could not get appointment • Forgot	
Expected revision Question: What was the main reason you postponed a medical appointment? Response options: • Cost • Lack of time • Could not get an appointment • Transportation problem • Forgot • Other • Did not postpone an appointment Revision notes: • Match the closed response options to a closed-ended request or remove the options for an open-ended item.	

Item 106	Flawed item
ID: gold-200-rewritten-106 Topic: mobility Target construct: main reasons for not cycling Difficulty: obvious Format: open_ended Gold labels: open_closed_mismatch Original item Question: What are all the reasons you do not cycle more often? Response options: • Unsafe routes • Bad weather • No bicycle • Other Expected revision Question: Which of the following are reasons you do not cycle more often? Select all that apply. Response options: • Unsafe routes • Bad weather • No bicycle • Long distance • Physical difficulty • No interest • Other • Not applicable Revision notes: • Use a closed select-all request to match the listed options.	
Item 107	Flawed item
ID: gold-200-rewritten-107 Topic: public services Target construct: details of problem with online portal Difficulty: realistic Format: open_ended Gold labels: open_closed_mismatch Original item Question: Tell us what happened when you last had a problem with the municipal online portal. Response options: • Login problem • Payment problem • Document upload problem • No problem Expected revision Question: What type of problem, if any, did you last have with the municipal online portal? Response options: • No problem • Login problem • Payment problem • Document upload problem • Could not find information • Other Revision notes: • Change the open narrative request into a closed classification item.	

Item 108	Flawed item
ID: gold-200-rewritten-108 Topic: education Target construct: suggestions for improving lectures Difficulty: borderline Format: open_ended Gold labels: open_closed_mismatch Original item Question: What specific change would most improve lectures in your program? Response options: • More examples • Slower pace • More interaction • Better slides Expected revision Question: Which change would most improve lectures in your program? Response options: • More examples • Slower pace • More interaction • Clearer slides • More feedback • Other Revision notes: • Align the wording with a closed-ended single-choice format.	
Item 109	Flawed item
ID: gold-200-rewritten-109 Topic: work Target construct: description of remote-work challenges Difficulty: obvious Format: open_ended Gold labels: open_closed_mismatch Original item Question: In your own words, describe the biggest challenge you face when working remotely. Response options: • Communication • Technology • Space at home • Motivation Expected revision Question: What is the biggest challenge you face when working remotely? Response options: • Communication with colleagues • Technology or internet access • Lack of suitable space at home • Motivation or focus • Care responsibilities • Other • Not applicable Revision notes: • Either ask open-ended with no options or use a closed-ended wording.	

Item 110	Flawed item
ID: gold-200-rewritten-110 Topic: technology Target construct: preferred app privacy improvement Difficulty: realistic Format: categorical_closed_ended Gold labels: open_closed_mismatch	
Original item Question: Which privacy improvement would you most like app developers to make? Please explain your answer in your own words. Response options: • Clearer permission requests • Easier deletion of data • Less third-party sharing • More control over notifications • Other	
Expected revision Question: Which privacy improvement would you most like app developers to make? Response options: • Clearer permission requests • Easier deletion of data • Less third-party sharing • More control over notifications • Other Revision notes: • Remove the request for an open-ended explanation when the response field only permits one closed category. v4 review change: Strengthen open_closed_mismatch by pairing an explicit request for an open explanation with closed-only response options.	

Item 111	Flawed item
ID: gold-200-rewritten-111 Topic: environment Target construct: open explanation of energy-saving barriers Difficulty: borderline Format: open_ended Gold labels: open_closed_mismatch	
Original item Question: Please explain why your household does not reduce energy use more. Response options: • Too expensive • Rented home • Already saving energy • Other	
Expected revision Question: What is the main reason your household does not reduce energy use more? Response options: • Cost of changes • Rental or building restrictions • Lack of information • Already saving as much as possible • Other • Not applicable Revision notes: • Use a closed-ended request that matches the provided categories.	

Item 112	Flawed item
ID: gold-200-rewritten-112 Topic: media/culture Target construct: reason for not attending cultural events Difficulty: obvious Format: open_ended Gold labels: open_closed_mismatch Original item Question: Why do you not attend local cultural events more often? Write your answer below. Response options: • Too expensive • No time • Not interested • Other Expected revision Question: What is the main reason you do not attend local cultural events more often? Response options: • Too expensive • Lack of time • Events are hard to reach • Not interested • Do not know about events • Other • Not applicable Revision notes: • Match the question to the closed response format.	
Item 113	Flawed item
ID: gold-200-rewritten-113 Topic: politics/public policy Target construct: support for citizen assemblies Difficulty: realistic Format: likert_agreement Gold labels: agree_disagree_scale Original item Question: Please indicate how much you agree or disagree that citizen assemblies should be used before major local policy decisions. Response options: • Strongly disagree • Somewhat disagree • Neither agree nor disagree • Somewhat agree • Strongly agree Expected revision Question: To what extent do you support or oppose using citizen assemblies before major local policy decisions? Response options: • Strongly oppose • Somewhat oppose • Neither support nor oppose • Somewhat support • Strongly support Revision notes: • Use an item-specific support-oppose scale instead of agree-disagree wording.	

Item 114	Flawed item
ID: gold-200-rewritten-114 Topic: public services Target construct: importance of transparent appointment waiting lists Difficulty: borderline Format: likert_agreement Gold labels: agree_disagree_scale Original item Question: Please indicate whether you agree that transparent waiting lists for specialist appointments are important. Response options: • Strongly disagree • Somewhat disagree • Neither agree nor disagree • Somewhat agree • Strongly agree Expected revision Question: How important or unimportant is it to you that waiting lists for specialist appointments are transparent? Response options: • Very unimportant • Somewhat unimportant • Neither important nor unimportant • Somewhat important • Very important Revision notes: • Ask directly about importance rather than agreement with a statement.	
Item 115	Flawed item
ID: gold-200-rewritten-115 Topic: environment Target construct: concern about drinking-water quality Difficulty: obvious Format: likert_agreement Gold labels: agree_disagree_scale Original item Question: Do you agree or disagree that drinking-water quality in your area is concerning? Response options: • Strongly disagree • Somewhat disagree • Neither agree nor disagree • Somewhat agree • Strongly agree Expected revision Question: How concerned are you about drinking-water quality in your area? Response options: • Not at all concerned • Slightly concerned • Moderately concerned • Very concerned • Extremely concerned Revision notes: • Use a concern scale that matches the construct.	

Item 116	Flawed item
ID: gold-200-rewritten-116 Topic: work Target construct: satisfaction with workload predictability Difficulty: realistic Format: likert_agreement Gold labels: agree_disagree_scale Original item Question: How strongly do you agree that your workload is predictable? Response options: • Strongly disagree • Somewhat disagree • Neither agree nor disagree • Somewhat agree • Strongly agree Expected revision Question: How predictable or unpredictable is your workload from week to week? Response options: • Very unpredictable • Somewhat unpredictable • Neither predictable nor unpredictable • Somewhat predictable • Very predictable Revision notes: • Replace the agree-disagree item with a direct predictability scale.	
Item 117	Flawed item
ID: gold-200-rewritten-117 Topic: public services Target construct: trust in automated decision systems Difficulty: borderline Format: likert_agreement Gold labels: agree_disagree_scale Original item Question: Please indicate whether you agree or disagree that automated decision systems used by public offices can be trusted. Response options: • Strongly disagree • Somewhat disagree • Neither agree nor disagree • Somewhat agree • Strongly agree Expected revision Question: How much do you trust or distrust automated decision systems used by public offices? Response options: • Strongly distrust • Somewhat distrust • Neither trust nor distrust • Somewhat trust • Strongly trust Revision notes: • Use a trust-distrust response scale instead of agreement.	

Item 118	Flawed item
ID: gold-200-rewritten-118 Topic: university life Target construct: satisfaction with course registration Difficulty: obvious Format: likert_agreement Gold labels: agree_disagree_scale	
Original item Question: Please state your level of agreement or disagreement with the statement: course registration works well. Response options: • Strongly disagree • Somewhat disagree • Neither agree nor disagree • Somewhat agree • Strongly agree	
Expected revision Question: How satisfied or dissatisfied are you with the course registration process? Response options: • Very dissatisfied • Somewhat dissatisfied • Neither satisfied nor dissatisfied • Somewhat satisfied • Very satisfied Revision notes: • Ask directly about satisfaction with the process.	
Item 119	Flawed item
ID: gold-200-rewritten-119 Topic: family/household Target construct: fairness of household task division Difficulty: realistic Format: likert_agreement Gold labels: agree_disagree_scale	
Original item Question: Do you agree that household tasks are divided fairly in your household? Response options: • Strongly disagree • Somewhat disagree • Neither agree nor disagree • Somewhat agree • Strongly agree	
Expected revision Question: How fair or unfair is the division of household tasks in your household? Response options: • Very unfair • Somewhat unfair • Neither fair nor unfair • Somewhat fair • Very fair • Not applicable Revision notes: • Use a fair-unfair scale suited to the construct.	

Item 120	Flawed item
ID: gold-200-rewritten-120 Topic: media/culture Target construct: reliability of local event information Difficulty: borderline Format: likert_agreement Gold labels: agree_disagree_scale Original item Question: Please indicate your agreement with the statement: public broadcasters provide reliable information about local events. Response options: • Strongly disagree • Somewhat disagree • Neither agree nor disagree • Somewhat agree • Strongly agree Expected revision Question: How reliable or unreliable do you find information about local events from public broadcasters? Response options: • Very unreliable • Somewhat unreliable • Neither reliable nor unreliable • Somewhat reliable • Very reliable Revision notes: • Use a reliability scale instead of agreement with a translated statement.	
Item 121	Flawed item
ID: gold-200-rewritten-121 Topic: education Target construct: support for smaller class sizes Difficulty: obvious Format: support_oppose Gold labels: unbalanced_scale Original item Question: Would you favor reducing class sizes in public schools? Response options: • Strongly favor • Favor • Somewhat favor • Neutral • Oppose Expected revision Question: To what extent do you support or oppose reducing class sizes in public schools? Response options: • Strongly oppose • Somewhat oppose • Neither support nor oppose • Somewhat support • Strongly support Revision notes: • Represent support and opposition symmetrically.	

Item 122	Flawed item
ID: gold-200-rewritten-122 Topic: politics/public policy Target construct: support for low-emission zones Difficulty: realistic Format: support_oppose Gold labels: unbalanced_scale Original item Question: What is your opinion of introducing low-emission zones in city centers? Response options: • Excellent idea • Good idea • Somewhat good idea • Neither good nor bad • Bad idea Expected revision Question: To what extent do you support or oppose introducing low-emission zones in city centers? Response options: • Strongly oppose • Somewhat oppose • Neither support nor oppose • Somewhat support • Strongly support Revision notes: • Balance positive and negative answer categories.	
Item 123	Flawed item
ID: gold-200-rewritten-123 Topic: health Target construct: support for expanding evening clinic hours Difficulty: borderline Format: support_oppose Gold labels: unbalanced_scale Original item Question: What level of support do you have for expanding evening clinic hours at public clinics? Response options: • Support completely • Support strongly • Support somewhat • Neutral • Do not support Expected revision Question: To what extent do you support or oppose expanding evening clinic hours at public clinics? Response options: • Strongly oppose • Somewhat oppose • Neither support nor oppose • Somewhat support • Strongly support Revision notes: • Provide parallel degrees of opposition as well as support.	

Item 124	Flawed item
ID: gold-200-rewritten-124 Topic: mobility Target construct: support for facial recognition in public transport stations Difficulty: obvious Format: ordinal_categories Gold labels: unbalanced_scale Original item Question: How acceptable is the use of facial recognition in public transport stations? Response options: • Completely acceptable • Mostly acceptable • Somewhat acceptable • Neither acceptable nor unacceptable • Unacceptable Expected revision Question: How acceptable or unacceptable is the use of facial recognition in public transport stations? Response options: • Very unacceptable • Somewhat unacceptable • Neither acceptable nor unacceptable • Somewhat acceptable • Very acceptable Revision notes: • Use balanced acceptability options on both sides.	
Item 125	Flawed item
ID: gold-200-rewritten-125 Topic: public services Target construct: support for appointment-only service offices Difficulty: realistic Format: support_oppose Gold labels: unbalanced_scale Original item Question: Would you support service offices moving to appointment-only visits? Response options: • Strongly support • Support • Somewhat support • Neither • Oppose Expected revision Question: To what extent do you support or oppose service offices moving to appointment-only visits? Response options: • Strongly oppose • Somewhat oppose • Neither support nor oppose • Somewhat support • Strongly support Revision notes: • Balance the number and strength of pro and con options.	

Item 126	Flawed item
ID: gold-200-rewritten-126 Topic: mobility Target construct: support for reducing car parking near train stations Difficulty: borderline Format: support_oppose Gold labels: unbalanced_scale Original item Question: What do you think about reducing car parking near train stations? Response options: • Very positive • Positive • Somewhat positive • Neutral • Negative Expected revision Question: To what extent do you support or oppose reducing car parking near train stations? Response options: • Strongly oppose • Somewhat oppose • Neither support nor oppose • Somewhat support • Strongly support Revision notes: • Avoid a scale with three positive levels and only one negative level.	
Item 127	Flawed item
ID: gold-200-rewritten-127 Topic: labor Target construct: support for mandatory recording of working time Difficulty: obvious Format: support_oppose Gold labels: unbalanced_scale Original item Question: How favorable are you toward mandatory recording of working time? Response options: • Very favorable • Favorable • Slightly favorable • Neutral • Against Expected revision Question: To what extent do you support or oppose mandatory recording of working time? Response options: • Strongly oppose • Somewhat oppose • Neither support nor oppose • Somewhat support • Strongly support Revision notes: • Use symmetric support and opposition categories.	

Item 128	Flawed item
ID: gold-200-rewritten-128 Topic: politics/public policy Target construct: support for public release of council attendance records Difficulty: realistic Format: support_oppose Gold labels: unbalanced_scale Original item Question: How good would it be to publish council members' attendance records? Response options: • Very good • Good • Somewhat good • Neither good nor bad • Bad Expected revision Question: To what extent do you support or oppose publishing council members' attendance records? Response options: • Strongly oppose • Somewhat oppose • Neither support nor oppose • Somewhat support • Strongly support Revision notes: • Balance favorable and unfavorable categories.	
Item 129	Flawed item
ID: gold-200-rewritten-129 Topic: family/household Target construct: respondent age group Difficulty: borderline Format: categorical_closed_ended Gold labels: incomplete_options Original item Question: Which age group includes your current age? Response options: • 18-24 • 25-34 • 35-44 • 45-54 Expected revision Question: Which age group includes your current age? Response options: • Under 18 • 18-24 • 25-34 • 35-44 • 45-54 • 55-64 • 65 or older • Prefer not to say Revision notes: • Add omitted younger, older, and nonresponse categories.	

Item 130	Flawed item
ID: gold-200-rewritten-130 Topic: education Target construct: highest completed education Difficulty: obvious Format: categorical_closed_ended Gold labels: incomplete_options Original item Question: What is the highest level of education you have completed? Response options: • No formal qualification • Lower secondary • Upper secondary • Bachelor's degree Expected revision Question: What is the highest level of education you have completed? Response options: • No formal qualification • Lower secondary • Upper secondary • Vocational training • Bachelor's degree • Master's degree or higher • Other • Prefer not to say Revision notes: • Include missing educational pathways and residual options.	
Item 131	Flawed item
ID: gold-200-rewritten-131 Topic: mobility Target construct: usual transport mode Difficulty: realistic Format: categorical_closed_ended Gold labels: incomplete_options Original item Question: Which mode of transport do you usually use for commuting? Response options: • Car • Public transport Expected revision Question: Which mode of transport do you usually use for commuting? Response options: • Walking • Bicycle • Public transport • Car as driver • Car as passenger • Motorcycle or scooter • Work or study from home • Other Revision notes: • Add common commuting modes and not-in-commute situations.	

Item 132	Flawed item
ID: gold-200-rewritten-132 Topic: labor Target construct: employment status Difficulty: borderline Format: categorical_closed_ended Gold labels: incomplete_options Original item Question: Which of the following best describes your current employment status? Response options: • Full-time employed • Part-time employed • Unemployed Expected revision Question: Which of the following best describes your current employment status? Response options: • Full-time employed • Part-time employed • Self-employed • Unemployed and seeking work • Student • Retired • Unable to work • Other • Prefer not to say Revision notes: • Cover plausible statuses beyond employment/unemployment.	

Item 133	Flawed item
ID: gold-200-rewritten-133 Topic: health Target construct: type of health insurance Difficulty: obvious Format: categorical_closed_ended Gold labels: incomplete_options Original item Question: What type of health insurance do you currently have? Response options: • Public insurance • Private insurance Expected revision Question: What type of health insurance do you currently have? Response options: • Public insurance • Private insurance • Both public and private coverage • No health insurance • Not sure • Prefer not to say Revision notes: • Add uninsured, mixed, and uncertainty categories.	

Item 134	Flawed item
ID: gold-200-rewritten-134 Topic: education Target construct: main device used for online learning Difficulty: realistic Format: categorical_closed_ended Gold labels: incomplete_options	
Original item Question: Which device do you use most often for online learning? Response options: • Laptop • Tablet	
Expected revision Question: Which device do you use most often for online learning? Response options: • Desktop computer • Laptop • Tablet • Smartphone • Shared public device • I do not use online learning • Other Revision notes: • Include common device categories and not-applicable.	
Item 135	Flawed item
ID: gold-200-rewritten-135 Topic: finances Target construct: main housing cost payment method Difficulty: borderline Format: categorical_closed_ended Gold labels: incomplete_options	
Original item Question: How do you usually pay your housing costs? Response options: • Bank transfer • Cash	
Expected revision Question: How do you usually pay your housing costs? Response options: • Automatic bank transfer • Manual bank transfer • Card payment • Cash • Payment by another household member • No housing cost payment • Other • Prefer not to say Revision notes: • Add missing payment arrangements and residual categories.	

Item 136	Flawed item
ID: gold-200-rewritten-136 Topic: media/culture Target construct: primary language for media use Difficulty: obvious Format: categorical_closed_ended Gold labels: incomplete_options	
Original item Question: In which language do you consume most news media? Response options: • German • English	
Expected revision Question: In which language do you consume most news media? Response options: • German • English • Turkish • Arabic • Russian • Another language • I do not consume news media • Prefer not to say Revision notes: • Include additional languages and non-use/nonresponse categories.	
Item 137	Flawed item
ID: gold-200-rewritten-137 Topic: finances Target construct: monthly personal income range Difficulty: realistic Format: numeric_ranges Gold labels: non_exclusive_options	
Original item Question: What was your personal net income last month? Response options: • 0-1000 euros • 1000-2000 euros • 2000-3000 euros • 3000 euros or more	
Expected revision Question: What was your personal net income last month? Response options: • Less than 1,000 euros • 1,000-1,999 euros • 2,000-2,999 euros • 3,000 euros or more • Prefer not to say Revision notes: • Remove overlapping endpoints between adjacent ranges.	

Item 138	Flawed item
ID: gold-200-rewritten-138 Topic: health Target construct: minutes of physical activity per week Difficulty: borderline Format: numeric_ranges Gold labels: non_exclusive_options Original item Question: How many minutes of moderate physical activity did you do last week? Response options: • 0-30 minutes • 30-60 minutes • 60-120 minutes • 120 minutes or more Expected revision Question: How many minutes of moderate physical activity did you do last week? Response options: • 0-29 minutes • 30-59 minutes • 60-119 minutes • 120 minutes or more • Not sure Revision notes: • Make numeric ranges mutually exclusive.	
Item 139	Flawed item
ID: gold-200-rewritten-139 Topic: education Target construct: number of missed classes Difficulty: obvious Format: numeric_ranges Gold labels: non_exclusive_options Original item Question: How many classes did you miss in the last 4 weeks? Response options: • 0 • 1-2 • 2-4 • 4 or more Expected revision Question: How many classes did you miss in the last 4 weeks? Response options: • 0 • 1-2 • 3-4 • 5 or more • Not applicable Revision notes: • Avoid overlapping values such as 2 and 4 in multiple categories.	

Item 140	Flawed item
ID: gold-200-rewritten-140 Topic: work Target construct: organization size Difficulty: realistic Format: numeric_ranges Gold labels: non_exclusive_options Original item Question: How many people work at your organization? Response options: • 1-10 • 10-50 • 50-250 • 250 or more Expected revision Question: How many people work at your organization? Response options: • 1-9 • 10-49 • 50-249 • 250 or more • Not sure • Not applicable Revision notes: • Use non-overlapping size intervals.	
Item 141	Flawed item
ID: gold-200-rewritten-141 Topic: family/household Target construct: weekly childcare hours Difficulty: borderline Format: numeric_ranges Gold labels: non_exclusive_options Original item Question: How many hours did you spend on childcare last week? Response options: • 0 hours • 0-5 hours • 5-10 hours • 10 or more hours Expected revision Question: How many hours did you spend on childcare last week? Response options: • 0 hours • 1-4 hours • 5-9 hours • 10 or more hours • Not applicable • Prefer not to say Revision notes: • Make the zero and boundary values exclusive to one category.	

Item 142	Flawed item
ID: gold-200-rewritten-142 Topic: mobility Target construct: one-way commute time Difficulty: obvious Format: numeric_ranges Gold labels: non_exclusive_options Original item Question: How long is your usual one-way commute? Response options: • Less than 15 minutes • 15-30 minutes • 30-60 minutes • 60 minutes or more Expected revision Question: How long is your usual one-way commute? Response options: • Less than 15 minutes • 15-29 minutes • 30-59 minutes • 60 minutes or more • I do not commute Revision notes: • Remove overlaps at 30 and 60 minutes.	
Item 143	Flawed item
ID: gold-200-rewritten-143 Topic: technology Target construct: daily screen time Difficulty: realistic Format: numeric_ranges Gold labels: non_exclusive_options Original item Question: How much non-work screen time did you have yesterday? Response options: • 0-1 hour • 1-3 hours • 3-5 hours • 5 or more hours Expected revision Question: How much non-work screen time did you have yesterday? Response options: • Less than 1 hour • 1-2 hours • 3-4 hours • 5 or more hours • Not sure Revision notes: • Use clear, non-overlapping intervals.	

ID: gold-200-rewritten-144

Topic: university life

Target construct: credits taken this semester

Difficulty: borderline **Format:** numeric_ranges

Gold labels: non_exclusive_options

Original item

Question: How many credits are you taking this semester?

Response options:

- 0-15
- 15-30
- 30-45
- 45 or more

Expected revision

Question: How many credits are you taking this semester?

Response options:

- 0-14
- 15-29
- 30-44
- 45 or more
- Not applicable

Revision notes:

- Ensure each credit value belongs to exactly one category.

ID: gold-200-rewritten-145

Topic: health

Target construct: pain level today

Difficulty: obvious **Format:** numeric_ranges

Gold labels: missing_scale_labels

Original item

Question: How much pain are you experiencing today?

Response options:

- 0
- 1
- 2
- 3
- 4
- 5
- 6
- 7
- 8
- 9
- 10

Expected revision

Question: How much pain are you experiencing today?

Response options:

- 0 = no pain
- 1
- 2
- 3
- 4
- 5
- 6
- 7
- 8
- 9
- 10 = worst pain imaginable

Revision notes:

- Label at least the endpoints of the numeric scale.

Item 146	Flawed item
ID: gold-200-rewritten-146 Topic: technology Target construct: confidence in identifying phishing messages Difficulty: realistic Format: numeric_ranges Gold labels: missing_scale_labels Original item Question: How confident are you that you can identify phishing messages? Response options: • 1 • 2 • 3 • 4 • 5 Expected revision Question: How confident are you that you can identify phishing messages? Response options: • 1 = not at all confident • 2 • 3 • 4 • 5 = very confident Revision notes: • Provide endpoint labels so scale direction is clear.	
Item 147	Flawed item
ID: gold-200-rewritten-147 Topic: environment Target construct: concern about local flooding Difficulty: borderline Format: numeric_ranges Gold labels: missing_scale_labels Original item Question: On the 1-to-5 scale, rate your concern about local flooding. Response options: • 1 • 2 • 3 • 4 • 5 Expected revision Question: How concerned are you about local flooding? Response options: • 1 = not at all concerned • 2 • 3 • 4 • 5 = extremely concerned Revision notes: • Add labels that define the meaning of numeric points.	

Item 148	Flawed item
ID: gold-200-rewritten-148 Topic: work Target construct: control over daily tasks Difficulty: obvious Format: numeric_ranges Gold labels: missing_scale_labels Original item Question: How much control do you have over the order of your daily tasks? Response options: • 0 • 1 • 2 • 3 • 4 • 5 Expected revision Question: How much control do you have over the order of your daily tasks? Response options: • 0 = no control • 1 • 2 • 3 • 4 • 5 = complete control • Not applicable Revision notes: • Label the endpoints and include not-applicable where relevant.	
Item 149	Flawed item
ID: gold-200-rewritten-149 Topic: education Target construct: difficulty of course materials Difficulty: realistic Format: numeric_ranges Gold labels: missing_scale_labels Original item Question: How difficult are the course materials this semester? Response options: • 1 • 2 • 3 • 4 • 5 Expected revision Question: How difficult are the course materials this semester? Response options: • 1 = very easy • 2 • 3 = neither easy nor difficult • 4 • 5 = very difficult Revision notes: • Add interpretive labels for the scale direction and midpoint.	

Item 150	Flawed item
ID: gold-200-rewritten-150 Topic: public services Target construct: ease of using online booking system Difficulty: borderline Format: numeric_ranges Gold labels: missing_scale_labels Original item Question: How easy was it to use the online booking system? Response options: • 1 • 2 • 3 • 4 • 5 Expected revision Question: How easy was it to use the online booking system? Response options: • 1 = very difficult • 2 • 3 = neither easy nor difficult • 4 • 5 = very easy Revision notes: • Label the scale so respondents know which end is easy.	
Item 151	Flawed item
ID: gold-200-rewritten-151 Topic: media/culture Target construct: trust in social media event information Difficulty: obvious Format: numeric_ranges Gold labels: missing_scale_labels Original item Question: On the numbered scale, rate your trust in event information shared on social media. Response options: • 0 • 1 • 2 • 3 • 4 Expected revision Question: How much do you trust event information shared on social media? Response options: • 0 = do not trust at all • 1 • 2 = trust somewhat • 3 • 4 = trust completely Revision notes: • Provide anchors for numeric response points.	

Item 152	Flawed item
ID: gold-200-rewritten-152 Topic: family/household Target construct: stress from household responsibilities Difficulty: realistic Format: numeric_ranges Gold labels: missing_scale_labels Original item Question: How stressful are your household responsibilities at the moment? Response options: • 1 • 2 • 3 • 4 • 5 Expected revision Question: How stressful are your household responsibilities at the moment? Response options: • 1 = not at all stressful • 2 • 3 • 4 • 5 = extremely stressful • Not applicable Revision notes: • Add endpoint labels and not-applicable option.	
Item 153	Flawed item
ID: gold-200-rewritten-153 Topic: politics/public policy Target construct: support for participatory budgeting Difficulty: borderline Format: numeric_ranges Gold labels: too_many_scale_points, missing_scale_labels Original item Question: Using the 0-to-20 scale, indicate your support or opposition to participatory budgeting in your municipality. Response options: <i>21 consecutive numeric options: 0-20.</i> Expected revision Question: To what extent do you support or oppose participatory budgeting in your municipality? Response options: • Strongly oppose • Somewhat oppose • Neither support nor oppose • Somewhat support • Strongly support Revision notes: • Use fewer response categories because the requested precision is not justified. • Use fully labeled response categories so the direction, endpoints, and midpoint are interpretable. v4 review change: Add missing_scale_labels because the high-resolution numeric options do not define endpoint direction or midpoint meaning.	

Item 154	Flawed item
ID: gold-200-rewritten-154 Topic: public services Target construct: satisfaction with pharmacy opening hours Difficulty: obvious Format: numeric_ranges Gold labels: too_many_scale_points, missing_scale_labels	
Original item Question: On a 0-to-100 scale, rate your satisfaction with pharmacy opening hours in your area. Response options: 101 consecutive numeric options: 0-100.	
Expected revision Question: How satisfied or dissatisfied are you with pharmacy opening hours in your area? Response options: • Very dissatisfied • Somewhat dissatisfied • Neither satisfied nor dissatisfied • Somewhat satisfied • Very satisfied Revision notes: • Replace the 101-point scale with a manageable labeled scale. • Use fully labeled response categories so the direction, endpoints, and midpoint are interpretable. v4 review change: Add missing_scale_labels because the high-resolution numeric options do not define endpoint direction or midpoint meaning.	
Item 155	Flawed item
ID: gold-200-rewritten-155 Topic: environment Target construct: concern about microplastics in waterways Difficulty: realistic Format: numeric_ranges Gold labels: too_many_scale_points, missing_scale_labels	
Original item Question: Rate your concern about microplastics in local waterways on a 0-to-30 scale. Response options: 31 consecutive numeric options: 0-30.	
Expected revision Question: How concerned are you about microplastics in local waterways? Response options: • Not at all concerned • Slightly concerned • Moderately concerned • Very concerned • Extremely concerned Revision notes: • Use a simpler concern scale. • Use fully labeled response categories so the direction, endpoints, and midpoint are interpretable. v4 review change: Add missing_scale_labels because the high-resolution numeric options do not define endpoint direction or midpoint meaning.	

Item 156	Flawed item
ID: gold-200-rewritten-156 Topic: education Target construct: importance of digital literacy classes Difficulty: borderline Format: numeric_ranges Gold labels: too_many_scale_points, missing_scale_labels	
Original item Question: How important are digital literacy classes in secondary schools? Response options: 15 consecutive numeric options: 1-15.	
Expected revision Question: How important or unimportant are digital literacy classes in secondary schools? Response options: • Very unimportant • Somewhat unimportant • Neither important nor unimportant • Somewhat important • Very important Revision notes: • Use a smaller, interpretable importance scale. • Use fully labeled response categories so the direction, endpoints, and midpoint are interpretable. v4 review change: Add missing_scale_labels because the high-resolution numeric options do not define endpoint direction or midpoint meaning.	
Item 157	Flawed item
ID: gold-200-rewritten-157 Topic: mobility Target construct: satisfaction with bicycle parking Difficulty: obvious Format: numeric_ranges Gold labels: too_many_scale_points, missing_scale_labels	
Original item Question: Choose a number from 0 to 25 to show your satisfaction with bicycle parking near train stations. Response options: 26 consecutive numeric options: 0-25.	
Expected revision Question: How satisfied or dissatisfied are you with bicycle parking near train stations? Response options: • Very dissatisfied • Somewhat dissatisfied • Neither satisfied nor dissatisfied • Somewhat satisfied • Very satisfied Revision notes: • Avoid an overly fine-grained scale for a general satisfaction judgment. • Use fully labeled response categories so the direction, endpoints, and midpoint are interpretable. v4 review change: Add missing_scale_labels because the high-resolution numeric options do not define endpoint direction or midpoint meaning.	

Item 158	Flawed item
ID: gold-200-rewritten-158 Topic: labor Target construct: perceived fairness of shift allocation Difficulty: realistic Format: numeric_ranges Gold labels: too_many_scale_points, missing_scale_labels Original item Question: How fair is the allocation of shifts in your workplace? Response options: <i>51 consecutive numeric options: 0-50.</i> Expected revision Question: How fair or unfair is the allocation of shifts in your workplace? Response options: • Very unfair • Somewhat unfair • Neither fair nor unfair • Somewhat fair • Very fair • Not applicable Revision notes: • Use a concise fair-unfair scale rather than 51 points. • Use fully labeled response categories so the direction, endpoints, and midpoint are interpretable. v4 review change: Add missing_scale_labels because the high-resolution numeric options do not define endpoint direction or midpoint meaning.	
Item 159	Flawed item
ID: gold-200-rewritten-159 Topic: technology Target construct: trust in cloud storage providers Difficulty: borderline Format: numeric_ranges Gold labels: too_many_scale_points, missing_scale_labels Original item Question: Use the 0-to-20 scale to show your trust in cloud storage providers to protect your files. Response options: <i>21 consecutive numeric options: 0-20.</i> Expected revision Question: How much do you trust or distrust cloud storage providers to protect your files? Response options: • Strongly distrust • Somewhat distrust • Neither trust nor distrust • Somewhat trust • Strongly trust Revision notes: • Replace the high-resolution numeric scale with a labeled trust scale. • Use fully labeled response categories so the direction, endpoints, and midpoint are interpretable. v4 review change: Add missing_scale_labels because the high-resolution numeric options do not define endpoint direction or midpoint meaning.	

Item 160	Flawed item
ID: gold-200-rewritten-160 Topic: university life Target construct: satisfaction with examination scheduling Difficulty: obvious Format: numeric_ranges Gold labels: too_many_scale_points, missing_scale_labels	
Original item Question: For this semester's exam schedule, choose a number from 0 to 40 to show your satisfaction. Response options: <i>41 consecutive numeric options: 0-40.</i>	
Expected revision Question: How satisfied or dissatisfied are you with the scheduling of exams this semester? Response options: • Very dissatisfied • Somewhat dissatisfied • Neither satisfied nor dissatisfied • Somewhat satisfied • Very satisfied Revision notes: • Use a simpler scale with clear verbal categories. • Use fully labeled response categories so the direction, endpoints, and midpoint are interpretable. v4 review change: Add missing_scale_labels because the high-resolution numeric options do not define endpoint direction or midpoint meaning.	
Item 161	Flawed item
ID: gold-200-rewritten-161 Topic: health Target construct: concern about medication side effects Difficulty: realistic Format: ordinal_categories Gold labels: polarity_mismatch	
Original item Question: Please rate your concern about side effects of your current medication. Response options: • Very satisfied • Somewhat satisfied • Neither satisfied nor dissatisfied • Somewhat dissatisfied • Very dissatisfied • Not applicable	
Expected revision Question: How concerned are you about side effects of your current medication? Response options: • Not at all concerned • Slightly concerned • Moderately concerned • Very concerned • Extremely concerned • Not applicable Revision notes: • Use concern response options rather than satisfaction options.	

Item 162	Flawed item
ID: gold-200-rewritten-162 Topic: university life Target construct: satisfaction with password-reset process Difficulty: borderline Format: ordinal_categories Gold labels: polarity_mismatch	
Original item Question: Please rate your satisfaction with the password-reset process for university accounts. Response options: • Very unsafe • Somewhat unsafe • Neither safe nor unsafe • Somewhat safe • Very safe	
Expected revision Question: How satisfied or dissatisfied are you with the password-reset process for university accounts? Response options: • Very dissatisfied • Somewhat dissatisfied • Neither satisfied nor dissatisfied • Somewhat satisfied • Very satisfied • Not applicable Revision notes: • Align the response scale with satisfaction, not perceived safety.	
Item 163	Flawed item
ID: gold-200-rewritten-163 Topic: environment Target construct: support for tree planting on streets Difficulty: obvious Format: support_oppose Gold labels: polarity_mismatch	
Original item Question: Do you support or oppose planting more street trees? Response options: • Very worried • Somewhat worried • Neither worried nor unworried • Somewhat unworried • Very unworried	
Expected revision Question: To what extent do you support or oppose planting more street trees? Response options: • Strongly oppose • Somewhat oppose • Neither support nor oppose • Somewhat support • Strongly support Revision notes: • Use support-oppose options for a policy preference.	

Item 164	Flawed item
ID: gold-200-rewritten-164 Topic: work Target construct: frequency of receiving feedback Difficulty: realistic Format: frequency Gold labels: polarity_mismatch Original item Question: At your workplace, how often are you given feedback on your work? Response options: • Very useful • Somewhat useful • Neither useful nor useless • Somewhat useless • Very useless Expected revision Question: How often do you receive feedback on your work? Response options: • Never • Rarely • Sometimes • Often • Very often • Not applicable Revision notes: • Use frequency categories for a frequency question.	
Item 165	Flawed item
ID: gold-200-rewritten-165 Topic: education Target construct: difficulty of registering for required courses Difficulty: borderline Format: ordinal_categories Gold labels: polarity_mismatch Original item Question: How difficult was it to register for required courses this semester? Response options: • Strongly oppose • Somewhat oppose • Neither support nor oppose • Somewhat support • Strongly support Expected revision Question: How easy or difficult was it to register for required courses this semester? Response options: • Very difficult • Somewhat difficult • Neither easy nor difficult • Somewhat easy • Very easy • Not applicable Revision notes: • Replace policy preference options with difficulty options.	

Item 166	Flawed item
ID: gold-200-rewritten-166 Topic: public services Target construct: trust in emergency alert messages Difficulty: obvious Format: ordinal_categories Gold labels: polarity_mismatch Original item Question: Please rate your trust in emergency alert messages from public authorities. Response options: • Never • Rarely • Sometimes • Often • Always Expected revision Question: How much do you trust or distrust emergency alert messages from public authorities? Response options: • Strongly distrust • Somewhat distrust • Neither trust nor distrust • Somewhat trust • Strongly trust Revision notes: • Use a trust scale rather than frequency options.	
Item 167	Flawed item
ID: gold-200-rewritten-167 Topic: family/household Target construct: fairness of dividing elder-care tasks Difficulty: realistic Format: ordinal_categories Gold labels: polarity_mismatch Original item Question: Rate the fairness of how elder-care tasks are shared in your household. Response options: • Very concerned • Somewhat concerned • Moderately concerned • Slightly concerned • Not at all concerned • Not applicable Expected revision Question: How fair or unfair is the division of elder-care tasks in your household? Response options: • Very unfair • Somewhat unfair • Neither fair nor unfair • Somewhat fair • Very fair • Not applicable Revision notes: • Align the answer categories with fairness.	

Item 168	Flawed item
ID: gold-200-rewritten-168 Topic: media/culture Target construct: importance of local cultural venues Difficulty: borderline Format: ordinal_categories Gold labels: polarity_mismatch Original item Question: How important are local cultural venues for your community? Response options: • Very dissatisfied • Somewhat dissatisfied • Neither satisfied nor dissatisfied • Somewhat satisfied • Very satisfied Expected revision Question: How important or unimportant are local cultural venues for your community? Response options: • Very unimportant • Somewhat unimportant • Neither important nor unimportant • Somewhat important • Very important Revision notes: • Use importance labels rather than satisfaction labels.	
Item 169	Flawed item
ID: gold-200-rewritten-169 Topic: politics/public policy Target construct: support for free annual health checks Difficulty: obvious Format: support_oppose Gold labels: leading_question, unbalanced_scale Original item Question: Everyone benefits when diseases are caught early, so how strongly do you favor free annual health checks? Response options: • Strongly favor • Favor • Somewhat favor • Neutral • Oppose Expected revision Question: To what extent do you support or oppose offering free annual health checks? Response options: • Strongly oppose • Somewhat oppose • Neither support nor oppose • Somewhat support • Strongly support Revision notes: • Remove the leading rationale. • Balance support and opposition options.	

Item 170	Flawed item
ID: gold-200-rewritten-170 Topic: politics/public policy Target construct: support for a city tree-planting levy Difficulty: realistic Format: support_oppose Gold labels: leading_question, unbalanced_scale Original item Question: Since more trees obviously make neighborhoods better, how positive are you about a small tree-planting levy? Response options: • Very positive • Positive • Somewhat positive • Neutral • Negative Expected revision Question: To what extent do you support or oppose a small levy for planting street trees? Response options: • Strongly oppose • Somewhat oppose • Neither support nor oppose • Somewhat support • Strongly support Revision notes: • Remove the one-sided justification. • Use symmetric response categories.	
Item 171	Flawed item
ID: gold-200-rewritten-171 Topic: public services Target construct: views on online forms and service-office staff Difficulty: borderline Format: ordinal_categories Gold labels: double_barreled, leading_question Original item Question: Given that digital services save everyone time, how satisfied are you with online government forms and the helpfulness of service-office staff? Response options: • Very dissatisfied • Somewhat dissatisfied • Neither satisfied nor dissatisfied • Somewhat satisfied • Very satisfied Expected revision Question: How satisfied or dissatisfied are you with online government forms? Response options: • Very dissatisfied • Somewhat dissatisfied • Neither satisfied nor dissatisfied • Somewhat satisfied • Very satisfied Revision notes: • Remove the leading preface. • Split online forms from staff helpfulness.	

Item 172	Flawed item
ID: gold-200-rewritten-172 Topic: mobility Target construct: views on cycle lanes and parking prices Difficulty: obvious Format: binary_yes_no Gold labels: double_barreled, leading_question	
Original item Question: Because sustainable travel is important, should the city improve cycle lanes and raise parking prices? Response options: • Yes • No	
Expected revision Question: To what extent do you support or oppose improving cycle lanes? Response options: • Strongly oppose • Somewhat oppose • Neither support nor oppose • Somewhat support • Strongly support Revision notes: • Remove the leading sustainability cue. • Ask the cycle-lane and parking-price proposals separately.	
Item 173	Flawed item
ID: gold-200-rewritten-173 Topic: work Target construct: weekly remote-work days Difficulty: realistic Format: numeric_ranges Gold labels: incomplete_options, non_exclusive_options	
Original item Question: How many days did you work remotely last week? Response options: • 0-1 days • 1-3 days • 3-5 days	
Expected revision Question: How many days did you work remotely last week? Response options: • 0 days • 1-2 days • 3-4 days • 5 days • Not applicable Revision notes: • Add omitted categories such as 5 days and not applicable. • Remove overlapping endpoints.	

Item 174	Flawed item
ID: gold-200-rewritten-174 Topic: finances Target construct: monthly rent payment amount Difficulty: borderline Format: numeric_ranges Gold labels: incomplete_options, non_exclusive_options Original item Question: How much rent did your household pay last month? Response options: • 0-500 euros • 500-1000 euros • 1000-1500 euros Expected revision Question: How much rent did your household pay last month? Response options: • No rent paid • Less than 500 euros • 500-999 euros • 1,000-1,499 euros • 1,500 euros or more • Prefer not to say Revision notes: • Include no-rent, high-rent, and nonresponse categories. • Make ranges mutually exclusive.	
Item 175	Flawed item
ID: gold-200-rewritten-175 Topic: education Target construct: clarity of grading criteria Difficulty: obvious Format: likert_agreement Gold labels: agree_disagree_scale, negative_wording Original item Question: Please indicate whether you disagree that the grading criteria were not unclear. Response options: • Strongly disagree • Somewhat disagree • Neither agree nor disagree • Somewhat agree • Strongly agree Expected revision Question: How clear or unclear were the grading criteria for this course? Response options: • Very unclear • Somewhat unclear • Neither clear nor unclear • Somewhat clear • Very clear • Not applicable Revision notes: • Avoid agree-disagree translation. • Remove the confusing negation.	

ID: gold-200-rewritten-176

Topic: technology

Target construct: ease of opting out of data sharing

Difficulty: realistic **Format:** likert_agreement

Gold labels: agree_disagree_scale, negative_wording

Original item

Question: Please indicate agreement or disagreement with this statement: it is not difficult to opt out of app data sharing.

Response options:

- Strongly disagree
- Somewhat disagree
- Neither agree nor disagree
- Somewhat agree
- Strongly agree

Expected revision

Question: How easy or difficult is it to opt out of app data sharing?

Response options:

- Very difficult
- Somewhat difficult
- Neither easy nor difficult
- Somewhat easy
- Very easy
- Not sure

Revision notes:

- Use an item-specific ease-difficulty scale.
- Avoid negative wording in the statement.

ID: gold-200-rewritten-177

Topic: sensitive behaviors

Target construct: interference with attendance after using drugs not legally available to respondent

Difficulty: borderline **Format:** filter_question

Gold labels: loaded_question, sensitive_topic_direct

Original item

Question: How much did using drugs not legally available to you interfere with your class or work attendance during the last 12 months?

Response options:

- I did not use drugs not legally available to me
- Not at all
- A little
- A moderate amount
- A great deal
- Prefer not to answer

Expected revision

Question: This item is optional. During the last 12 months, did you use drugs not legally available to you? If yes, how much, if at all, did this interfere with your class or work attendance?

Response options:

- No, did not use drugs not legally available to me
- Yes, not at all
- Yes, a little
- Yes, a moderate amount
- Yes, a great deal
- Prefer not to answer

Revision notes:

- Do not presume the behavior occurred before asking about interference.
- Introduce the sensitive item as optional and retain a prefer-not-to-answer path.

Item 178	Flawed item
ID: gold-200-rewritten-178 Topic: education Target construct: perceived academic effect of paying someone to complete coursework Difficulty: obvious Format: filter_question Gold labels: loaded_question, sensitive_topic_direct	
Original item Question: How much did paying someone to complete coursework for you improve your academic results this year? Response options: • I did not pay someone to complete coursework for me • Not at all • A little • A moderate amount • A great deal • Prefer not to answer	
Expected revision Question: This item is optional. This academic year, did you pay someone to complete coursework for you? If yes, how much, if at all, did this affect your academic results? Response options: • No, did not pay someone to complete coursework • Yes, not at all • Yes, a little • Yes, a moderate amount • Yes, a great deal • Prefer not to answer Revision notes: • Do not presume the behavior occurred or that it improved grades. • Reduce sensitivity by making the item optional and allowing refusal.	
Item 179	Flawed item
ID: gold-200-rewritten-179 Topic: university life Target construct: stress about exam scheduling Difficulty: realistic Format: numeric_ranges Gold labels: missing_scale_labels, too_many_scale_points	
Original item Question: How stressful is the exam schedule this semester? Response options: 31 consecutive numeric options: 0-30.	
Expected revision Question: How stressful is the exam schedule this semester? Response options: • Not at all stressful • Slightly stressful • Moderately stressful • Very stressful • Extremely stressful Revision notes: • Reduce the excessive number of scale points. • Use labeled categories rather than unlabeled numbers.	

Item 180	Flawed item
ID: gold-200-rewritten-180 Topic: public services Target construct: ease of understanding tax letters Difficulty: borderline Format: numeric_ranges Gold labels: missing_scale_labels, too_many_scale_points	
Original item Question: How easy is it to understand tax letters from public offices? Response options: 25 consecutive numeric options: 1-25.	
Expected revision Question: How easy or difficult is it to understand tax letters from public offices? Response options: • Very difficult • Somewhat difficult • Neither easy nor difficult • Somewhat easy • Very easy Revision notes: • Replace the 25-point unlabeled scale. • Add verbal labels to show direction and meaning.	
Item 181	Flawed item
ID: gold-200-rewritten-181 Topic: environment Target construct: concern about not reducing household energy use Difficulty: obvious Format: support_oppose Gold labels: negative_wording, polarity_mismatch	
Original item Question: How unconcerned are you about not reducing household energy use? Response options: • Strongly oppose • Somewhat oppose • Neither support nor oppose • Somewhat support • Strongly support	
Expected revision Question: How concerned are you about your household's energy use? Response options: • Not at all concerned • Slightly concerned • Moderately concerned • Very concerned • Extremely concerned Revision notes: • Remove the negative wording. • Use concern options rather than support-oppose options.	

Item 182	Flawed item
ID: gold-200-rewritten-182 Topic: health Target construct: ease of not missing medication doses Difficulty: realistic Format: ordinal_categories Gold labels: negative_wording, polarity_mismatch	
Original item Question: How easy is it for you not to avoid missing medication doses? Response options: • Very satisfied • Somewhat satisfied • Neither satisfied nor dissatisfied • Somewhat dissatisfied • Very dissatisfied • Not applicable	
Expected revision Question: How easy or difficult is it for you to take medication as prescribed? Response options: • Very difficult • Somewhat difficult • Neither easy nor difficult • Somewhat easy • Very easy • Not applicable Revision notes: • Remove the double negative. • Use ease-difficulty categories instead of satisfaction categories.	
Item 183	Flawed item
ID: gold-200-rewritten-183 Topic: mobility Target construct: reasons for choosing car travel Difficulty: borderline Format: open_ended Gold labels: non_exclusive_options, open_closed_mismatch	
Original item Question: Please describe why you usually travel by car. Response options: • 0-15 minutes • 15-30 minutes • 30-60 minutes • 60 minutes or more	
Expected revision Question: What is the main reason you usually travel by car? Response options: • Fastest option • Cheapest option • No suitable public transport • Need to carry items or accompany others • Health or mobility reason • Other • I do not usually travel by car Revision notes: • Closed options do not match an open narrative request. • Replace overlapping time ranges with relevant reason categories.	

Item 184	Flawed item
ID: gold-200-rewritten-184 Topic: family/household Target construct: reason for using paid childcare Difficulty: obvious Format: open_ended Gold labels: non_exclusive_options, open_closed_mismatch	
Original item Question: In your own words, why do you use paid childcare? Response options: • 0-5 hours • 5-10 hours • 10-20 hours • 20 or more hours	
Expected revision Question: What is the main reason your household uses paid childcare? Response options: • Work or study schedule • Child development or socialization • No unpaid care available • Respite or personal time • Other • Do not use paid childcare Revision notes: • The response categories measure hours rather than reasons. • They are closed and have overlapping boundaries despite an open request.	
Item 185	Flawed item
ID: gold-200-rewritten-185 Topic: technology Target construct: reason for bypassing privacy settings Difficulty: realistic Format: open_ended Gold labels: open_closed_mismatch, loaded_question	
Original item Question: Why did you bypass the privacy settings in your most-used app? Response options: • I did not bypass privacy settings • Settings were too complicated • Wanted faster access • Did not think the settings mattered • Other reason	
Expected revision Question: Have you ever changed or bypassed privacy settings in your most-used app? If yes, what was the main reason? Response options: • No, did not change or bypass privacy settings • Yes, settings were too complicated • Yes, wanted faster access • Yes, did not think the settings mattered • Yes, other reason • Not sure Revision notes: • The original assumes the behavior occurred. • The wording asks an open why-question while forcing a closed list; revise to a filtered closed-ended item.	

Item 186	Flawed item
ID: gold-200-rewritten-186 Topic: work Target construct: reason for missing mandatory workplace training Difficulty: borderline Format: open_ended Gold labels: open_closed_mismatch, loaded_question Original item Question: Explain why you skipped mandatory workplace training this year. Response options: • I did not skip mandatory workplace training • Scheduling conflict • Workload was too high • Forgot • Training seemed not useful • Other reason • Not applicable Expected revision Question: This year, did you miss any mandatory workplace training? If yes, what was the main reason? Response options: • No, did not miss mandatory workplace training • Yes, scheduling conflict • Yes, workload was too high • Yes, forgot • Yes, training seemed not useful • Yes, other reason • Not applicable Revision notes: • Add a filter because missing training is assumed. • Align the closed categories with a closed-ended request rather than an open-ended explain prompt.	
Item 187	Flawed item
ID: gold-200-rewritten-187 Topic: media/culture Target construct: frequency of attending local events Difficulty: obvious Format: ordinal_categories Gold labels: polarity_mismatch, incomplete_options Original item Question: During the last 3 months, how often did you attend local cultural events? Response options: • Very satisfied • Somewhat satisfied • Neither satisfied nor dissatisfied Expected revision Question: How often did you attend local cultural events in the last 3 months? Response options: • Not at all • Once • 2-3 times • 4 or more times Revision notes: • Use frequency categories rather than satisfaction categories. • Include the full range of plausible attendance frequencies.	

Item 188	Flawed item
ID: gold-200-rewritten-188 Topic: education Target construct: support needed for online exams Difficulty: realistic Format: ordinal_categories Gold labels: polarity_mismatch, incomplete_options Original item Question: Which type of support would help you most during online exams? Response options: • Very easy • Somewhat easy • Neither easy nor difficult Expected revision Question: Which type of support would help you most during online exams? Response options: • Technical support • Clearer instructions • Practice exam environment • Extra time or accessibility support • No support needed • Other Revision notes: • Response options are on the wrong dimension. • Add relevant support categories and residual choices.	
Item 189	Flawed item
ID: gold-200-rewritten-189 Topic: health Target construct: exercise frequency and sleep quality Difficulty: borderline Format: frequency Gold labels: recall_error, double_barreled Original item Question: Across the past year, how many times did you exercise for at least 30 minutes and sleep well that night? Response options: • 0 times • 1-20 times • 21-100 times • More than 100 times Expected revision Question: In the past 7 days, on how many days did you exercise for at least 30 minutes? Response options: • 0 days • 1-2 days • 3-4 days • 5-6 days • 7 days Revision notes: • Shorten the recall period. • Ask exercise separately from sleep quality.	

Item 190	Flawed item
ID: gold-200-rewritten-190 Topic: technology Target construct: frequency of software updates and password changes Difficulty: obvious Format: frequency Gold labels: recall_error, double_barreled	
Original item Question: In the last year, how many times did you install software updates and change passwords promptly? Response options: • 0 times • 1-5 times • 6-20 times • More than 20 times	
Expected revision Question: In the last 30 days, how many times did you install software updates when prompted? Response options: • 0 times • 1 time • 2-3 times • 4 or more times • No prompts received Revision notes: • Reduce the recall period. • Separate update behavior from password changes.	
Item 191	Flawed item
ID: gold-200-rewritten-191 Topic: finances Target construct: paying taxes accurately Difficulty: realistic Format: binary_yes_no Gold labels: sensitive_topic_direct, social_desirability, negative_wording	
Original item Question: Honest people report all taxable income. Did you fail to report any taxable income last year? Response options: • Yes • No	
Expected revision Question: People’s tax filing situations differ, and you may skip this question. For your most recent tax filing, which statement best describes the taxable income reported? Response options: • The reported amount included all taxable income • The reported amount included only part of the taxable income • I was not required to file a tax return • Not sure • Prefer not to answer Revision notes: • Remove the moralizing cue. • Replace the negatively framed “fail to report” yes/no wording with neutral response statements. • Use a sensitive-item preface and include nonresponse and not-required options. v4 review change: Add negative_wording because “fail to report” frames the behavior negatively and complicates yes/no interpretation; revise to neutral categorical statements.	

Item 192	Flawed item
ID: gold-200-rewritten-192 Topic: family/household Target construct: household conflict and responsible behavior Difficulty: borderline Format: binary_yes_no Gold labels: sensitive_topic_direct, social_desirability	
Original item Question: Responsible family members do not shout during conflicts. Did you shout at someone in your household in the last month? Response options: • Yes • No	
Expected revision Question: People have different household experiences, and you may skip this question. In the last month, did you shout at someone in your household during a conflict? Response options: • Yes • No • Prefer not to answer • Not applicable Revision notes: • Remove the social desirability pressure. • Add skip/nonresponse options for the sensitive conflict item.	
Item 193	Flawed item
ID: gold-200-rewritten-193 Topic: environment Target construct: general eco-friendly behavior Difficulty: obvious Format: frequency Gold labels: social_desirability, vague_ambiguous	
Original item Question: Thinking about daily life, how often do you behave sustainably, as everyone should? Response options: • Never • Sometimes • Always	
Expected revision Question: During a typical week, how often do you choose a lower-waste option when one is available? Response options: • Never • Rarely • Sometimes • Often • Very often • Not applicable Revision notes: • Remove the normative wording. • Replace vague sustainability language with a specific behavior.	

Item 194	Flawed item
ID: gold-200-rewritten-194 Topic: university life Target construct: being a good class participant Difficulty: realistic Format: frequency Gold labels: social_desirability, vague_ambiguous	
Original item Question: How often are you a good participant in seminars? Response options: • Never • Sometimes • Always	
Expected revision Question: During the last four seminar meetings, how often did you contribute at least one question or comment? Response options: • 0 meetings • 1 meeting • 2 meetings • 3 meetings • 4 meetings • Not applicable Revision notes: • Avoid socially desirable identity wording. • Define the behavior being measured.	
Item 195	Flawed item
ID: gold-200-rewritten-195 Topic: politics/public policy Target construct: agreement about police visibility Difficulty: borderline Format: numeric_ranges Gold labels: too_many_scale_points, agree_disagree_scale	
Original item Question: On a scale from 0 to 20, how much do you agree that more visible police patrols make neighborhoods safer? Response options: <i>21 consecutive numeric options: 0-20.</i>	
Expected revision Question: To what extent do you support or oppose increasing visible police patrols in your neighborhood? Response options: • Strongly oppose • Somewhat oppose • Neither support nor oppose • Somewhat support • Strongly support Revision notes: • Avoid agree-disagree wording for a policy preference. • Use a simpler labeled support-oppose scale.	

Item 196	Flawed item
ID: gold-200-rewritten-196 Topic: public services Target construct: agreement about vaccination reminders Difficulty: obvious Format: numeric_ranges Gold labels: too_many_scale_points, agree_disagree_scale	
Original item Question: Using the 0-30 scale, how strongly do you agree that automatic vaccination reminders are useful? Response options: <i>31 consecutive numeric options: 0-30.</i>	
Expected revision Question: How useful or not useful would automatic vaccination reminders be for you? Response options: • Not at all useful • Slightly useful • Moderately useful • Very useful • Extremely useful Revision notes: • Replace the excessive numeric scale. • Ask directly about perceived usefulness.	
Item 197	Flawed item
ID: gold-200-rewritten-197 Topic: education Target construct: acceptability of AI grading support Difficulty: realistic Format: numeric_ranges Gold labels: unbalanced_scale, missing_scale_labels	
Original item Question: How acceptable is using AI tools to support grading? Response options: • 1 • 2 • 3 • 4 • 5 = acceptable	
Expected revision Question: How acceptable or unacceptable is using AI tools to support grading? Response options: • 1 = very unacceptable • 2 = somewhat unacceptable • 3 = neither acceptable nor unacceptable • 4 = somewhat acceptable • 5 = very acceptable Revision notes: • Balance positive and negative response directions. • Label both endpoints and the midpoint.	

Item 198	Flawed item
ID: gold-200-rewritten-198 Topic: politics/public policy Target construct: support for lowering voting age Difficulty: borderline Format: numeric_ranges Gold labels: unbalanced_scale, missing_scale_labels Original item Question: Please rate how much you favor lowering the voting age for local elections. Response options: • 1 • 2 • 3 • 4 • 5 = strongly favor Expected revision Question: To what extent do you support or oppose lowering the voting age for local elections? Response options: • 1 = strongly oppose • 2 = somewhat oppose • 3 = neither support nor oppose • 4 = somewhat support • 5 = strongly support Revision notes: • Use a balanced support-oppose structure. • Label scale values so direction is clear.	
Item 199	Flawed item
ID: gold-200-rewritten-199 Topic: media/culture Target construct: frequency of engaging with culture online Difficulty: obvious Format: frequency Gold labels: vague_ambiguous, recall_error Original item Question: Over the past year, how often did you do cultural things online? Response options: • Never • Sometimes • Often Expected revision Question: In the past 30 days, how often did you watch, read, or listen to a cultural event or performance online? Response options: • Never • Once • 2-3 times • Weekly • More than weekly Revision notes: • Define the vague phrase cultural things. • Use a shorter recall period for a repeated behavior.	

ID: gold-200-rewritten-200

Topic: public services
